Qualifying employees shall receive their regular straight time pay up to the maximum accrued at the time of illness. Paid sick leave time accrued by qualifying employees may be used for the following:
- i) bona-fide illness of self, including but not limited to visiting doctors, dentists or other practitioners in their offices;

- B. Accrual Rate. Qualifying employees accrue sick leave at a rate of 3.6923 hours per two-week pay period, up to 96 hours per anniversary year. Although employees may not use paid sick leave during the employee's introductory period, the employee shall continue to accrue sick leave during that period which may be used at the successful conclusion of the introductory period. Part-time and temporary employees do not accrue paid sick leave. Furthermore, unless otherwise required by law, sick leave shall not accrue during any bi-weekly pay period during which an employee is on leave without pay, suspended, or otherwise absent without leave for more than one (1) working day during said bi-weekly pay period.
- C. Accrual Rules For Classified Employees. Classified employees utilizing the sick leave benefit will be charged first against any accrued days and then against other allowable days under state law. In no case will the sick leave benefit be greater than the number of days allowable under state law.
- D. Using Paid Sick Leave: An employee seeking to use paid sick leave to be absent from work on only one day shall contact his/her supervisor no later than 60 minutes from the time of his/her scheduled time to report for work. If advance notice is possible prior to the calendar day the employee desires to use paid sick leave, the employee shall complete the appropriate Leave Request Form as soon as reasonably practical. (If an employee takes leave due to the illness of a family member, the employee shall submit a written statement from the family member's treating physician.); Any employee using any amount of sick leave on a work day immediately prior to a City holiday shall provide the above statement upon returning to work following the City holiday. The City, in such circumstances may also recover the compensation paid to the employee for the period in question and take such other disciplinary action including termination.
- F. Guidelines for Employees Returning To the Workplace Following Period of Illness. An employee who has been absent from his/her job function due to his or her illness for at least 10 consecutive work days may return to work in accordance with the following guidelines:
- i) The employee shall submit a fitness-for-duty certification to the Director of Personnel from his or her treating physician that confirms the employee's ability to return to work.

The fitness-for duty certification shall be limited to the particular health condition that formed the basis for the employee's sick leave. The certification must (a) certify that the employee is able to return to work and that the return to work shall not jeopardize the health or safety of the employee or others and (b) specifically address the employee's ability to perform the essential functions of his or her job. The employee may be allowed to return to his or her duties without any further determination. The City may delay an employee's return to work until he or she submits the required fitness-for-duty certification.

- ii) Subject to the provisions of applicable federal and state law, the City may, at the discretion of the Director of Personnel, require an employee to undergo a medical examination by a physician selected by the City (at the City's expense) to determine if the employee is able to perform the essential functions of his or her job without jeopardizing the health or safety of the employee or others. A medical examination shall only be required if it is job-related and consistent with business necessity.

Based on the results of the examination conducted by the City-selected physician, the Mayor shall make the determination of whether the employee is cleared to return to his/her original job function, or whether some other personnel action is dictated by the circumstances and facts.

G. Restrictions.

- i) No employee while using paid sick leave, shall operate a City owned vehicle assigned to him/her.
- ii) No employee while using paid sick leave, shall engage in any "off-duty" employment including serving as a volunteer with the Hammond Fire Department, or as a reservist with the Hammond Police Department.
- iii) No employee shall be allowed to use paid sick leave for an illness, injury or medical condition otherwise compensable by workers' compensation. In such event, applicable state statutes shall govern compensation of the employee.

H. Accumulation, Retirement and Termination. If an employee does not use sick leave accrued up through December 31 of any given year, such unused balances shall be carried over and added to that which he/she accrues in the following year. An employee may accrue a maximum of 1440 hours. At the time of retirement from the City, employees shall be paid for any unused sick leave at the straight time rate of pay earned at the time of separation. Terminating employees, other than in the case of a reduction in force (RIF) or at the time of retirement, are not paid for accrued and unused sick days, regardless of whether their termination was voluntary or involuntary. However, the City shall honor policies not specified in this section and which are mandated by statute or federal laws governing all municipal employees.

I. Exhaustion. When an employee has used all accumulated paid sick leave, but has vacation leave accumulations available for use, upon request by the employee, he/she may be permitted to use vacation leave for sick leave purposes, subject to the provisions, conditions and limitations set forth in these policies.

J. Donation. No donations of accumulated paid sick leave time among employees eligible to accrue paid sick leave may be provided for.

Rule V-22.1 Extended Sick Leave Policy for Non-Classified Employees

A. In addition to the paid sick leave granted in Rule V-22, the City on a case by case basis may provide a one-time extended sick leave compensation of a maximum of forty (40) working days in any two five (5) calendar year period to individual full-time employees who have completed their Introductory Period and whose medical and health conditions involve hospitalization, a catastrophic-type illness, and/or physician-directed rehabilitation following hospitalization and/or catastrophic-type illness. For the purpose of this policy, a catastrophic-type illness is defined as an illness that requires extensive medical

treatment, which alters lifestyle and that which prevents the employee from performing any type of work for the City. Any illness or physical condition that makes him or her eligible for benefits under the Family and Medical Leave Act, shall qualify such employee for use of this benefit.

- B. Approval for use of such extended sick leave benefit shall be at the discretion of the Mayor, following a recommendation submitted to the Director of Personnel by the employee's Department Head or designee, using the appropriate Extended Leave Request form. The Director of Personnel shall review the recommendation to determine that all established procedures have been followed. As part of the review, the Director of Personnel shall require the employee to submit a written statement from his or her treating physician certifying the need for the extended sick leave.
- C. All regularly accrued sick leave and vacation leave shall first be exhausted before Extended Sick Leave may be granted to an otherwise eligible employee.
- D. This benefit may not be granted to cover hospitalization or injury that otherwise would be covered by workers' compensation.
- E. Before being allowed to return to work, any non-classified employee that has received extended leave shall submit a fitness-for-duty certification to the Director of Personnel from his or her treating physician that confirms the employee's ability to return to work. The fitness-for duty certification shall be limited to the particular health condition that formed the basis for the employee's sick leave. The certification must (a) certify that the employee is able to return to work and that the return to work shall not jeopardize the health or safety of the employee or others and (b) specifically address the employee's ability to perform the essential functions of his or her job.
