III. PUBLIC HEARING:

1. An ordinance to adopt the recommendation of the Zoning Commission not to expand the Hammond Historic District. Dr. Lacy Landrum, presented item to council and reviewed information provided to council for consideration. On December 13, 2016 the council was delivered a report on the proposed expansion of the Hammond Historic District. The report that the council received were Attorney memos, reports of the Zoning Commission -along with their meeting minutes and the map of the of the expansion area, Study Committee- Reports, meeting minutes & map, City outreach notices & survey responds cords, and public comments. She stated on the spreadsheet that you received tonight is a summary of everything that was received starting Dec., 13th, 2016.

Council President Marshall explained that since agenda items 1 & 2 both deal with the question of expansion of the Historic District, the Council would take comments on both ordinances at one time.

There were public comments:

Persons Opposed to Expansion:

Michael Minkus: 408 E. Charles St. - Asked council to follow the recommendation of the Zoning Commission and vote no to the Ordinance to Expand the Hammond Historic District. Mr. Minkus stated that homeowners should not be burdened with additional regulations, processes, and costs which could be subject to subjective interpretations of guidelines. He also believes the diversity of the Adams Lilly neighborhood would challenge the committee with significantly different views of the residents and what's important to an individual's quality of life. Mr. Minkus stated he's fearful of their future and how this may apply to their living standards and in the ability to maintain their property.

Anthony Ruratza: 600 East Robert St. – Stated he's been a resident of Hammond for over 15yrs., and values the work of the Historical District with the commercial side of Downtown Hammond but, these guidelines are not relevant for the residents in the Adam Lilly's Neighborhood. This will increase cost for repairs and not everyone has the resources and limitations to pay additional cost. He stated that the expansion of the Historical District will not increase the property values.

Jennifer White: 601 East Charles Street – Passed out a list of neighbors who opposed expansion along with a map. Jennifer stated she would like council to follow the recommendation of the Zoning Commission and vote not to include Adams Lilly. She stated they are willing to come together as a neighborhood and work out a set of guidelines to preserve their neighborhood as well as having everyone comfortable. Her concerns are having to seek approval for every home project & the increase in cost.

Greg Drude: 1500 University Drive- Stated he did not own in this neighborhood but, has sold property in this neighborhood for the last 25yrs. He informed the council he purchased a home that's 64 yrs. old to tear down due to the land was worth more than the home, and if this home was in this district he could not do it if the district is expanded. The other concern is if this is approved there will be bringing property into the district that does not belong.

Jinnie Wilson: 720 East Charles Street- Stated she's on Banker's Row and she does not want to be in the Historic District. The Preservation District has tied her hands to be able to do things like subdivide, sell, & rebuild. She stated no one should tell her what to do with her property and would like to be excluded from the Preservation & Historic District. Jinnie expressed that she wants to be excluded.
Councilman Mike Williams asked a question on how could one property be excluded

City Attorney Andre Coudrain states that 212 North Chestnut was excluded because a council member asked that the Ordinance exclude that property.

City Attorney Andre Coudrain informed Council that they can amend, adopt, reject or send the recommendation back to the Zoning Commission for further study.

Persons In Favor of Expansion:

Michael Holly: 604 East Robert – Stated that he was on the first Historic commission in Hammond. There was opposition to the first Historic District but, the most verbal opponent later became a member of the Historic District Commission. The commission is there to assist homeowners not to be a hindrance. He stated this is the oldest neighborhood in the City it’s important to protect it as a resource, and also look at the long term benefit of District.

Maria Mcclellan: 309 North Holly Street - Ms. Mcclellan stated she’s a Real Estate Broker and purchased her home after Katrina. She informed the council that Historic Buildings are important and enhances property values- this is for Economic Development. She stated we need a new Economic Development driver and she thinks becoming a Certified Retirement community for Hammond by using the Historic District would be a benefit.

Pat Macaluso: 701 East Charles Street - Stated she has come before the commission on numerous occasions and it’s been a process but, easy. The commission tries to work with the property owners and solve the problems to guide the property owners in the right direction to find other alternatives.

Tom Anderson: 706 East Charles Street – Stated that their neighborhood has a rich history and the council can make a statement of not only preserving the past but, to ensure the quality of life that would enrich their future by expanding the district. He asked the members in support of the Expansion to stand & he presented (4) affidavits in support that were not able to attend meeting.

Several persons in the audience stood up.

Council Lemar Marshall: Allowed members in opposition also to stand to be recognized.

Several persons in the audience stood up

Patty Pitzer: 210 North Holly Street – Informed council that the Historic Guidelines were recently updated and believes will serve the neighborhood well.

Ron Macaluso: 701 East Charles Street – Stated he lived in the neighborhood for a long time. He stated he has seen what the Historic District has done to downtown. Mr. Macaluso suggested the ordinance has a sunset provision of 2yrs. to see how it works. There are comprises that could work because it works in downtown Hammond and thinks it will work for their neighborhood.

Other comments

Anthony Ruratz: Asked if there has been any communication from the City Administration to renters or Lessees. Dr. Lacy Landrum, Director of Administration stated there were not.

Dr. Lacy Landrum informed Mr. Anthony there were no direct letters sent to renters. She stated the Tangipahoa Assessors Office website was used with their ownership listed so letters were sent out to owners of the properties. There were public hearing notices posted in the council records and newspaper which was publicized several times but, no direct correspondence mailed to renters.

Melanie Ricketts- Acting Administrative Officer for the current Hammond Historic District, 607 Joe Ferris Drive - Stated the Preservation & Historic District Commission does not regulate use. The Historic District is based on the integrity of Historic Materials & structures. Mrs. Ricketts informed that there are conflicts with the Residential Preservation District and the current Historic District guidelines. She stated that this would be need to be resolved before the expansion. If there is an increase in properties for the Historic District that would be reviewed this will affect the office and the City will need more staffing if the District is expanded. The commission is a resource and information is online to review.

Councilman Jason Hood: Asked about a map that was presented the yellow shows property owned by the City. The property of the City would be in the proposed expansion and if the City should expect other people to fall in line we should lead by example. Councilman Hood stated it’s not fair if one is excluded but not the others for the proposed expansion.
Councilman Mike Williams: Stated that this is a very difficult decision. Councilman Williams other concern is he would like to have this process delayed until a Director is hired and would need to be full time. If 2 commission members told him they would not want this passed due to the increase in the number of properties and enforcement of the properties.

Melanie Ricketts: Stated the new staff person hired for the position needs to know what properties are involved. She also stated that the new person will have a huge learning curve and it may be something that overwhelming.

Mary Ann Callais: 412 East Charles Street - She lived in this neighborhood for 23 yrs. The interpretation of the guidelines is very confusing. If the council voted to expand she would comply. If the vote is in favor the community needs to be educated on the process and guidelines.

2. An ordinance to expand the Historic District. Dr. Lacy Landrum, presented this item informed council this is to expand the district but, to excluded the property at 212 North Chestnut Street.

VII. RESOLUTIONS

A. OLD BUSINESS:

   1. A resolution to authorize the Mayor to release a Request for Proposal, as recommended by
      the Zemurray Park Focus Group, for a master plan for the reuse and redevelopment of all
      Zemurray Park athletic fields and other spaces not currently in use, including but not limited to,
      additional aquatics facilities, tennis courts, basketball courts, and a possible amphitheater. The
      primary centerpiece of the proposal will be the redevelopment of the Zemurray Park Pool to
      include a 25-yard, 10-lane pool, suitable for competitive and recreational use, with a new pool
      house. Councilman Lemar Marshall, presented this item and wanted an understanding whether under
      the resolution there should it be 1 RFP or 2 RFP? He stated that the overall plan was to submit the RFP for the
      Master plan for the entire park which was inclusive of the pool. Councilman Marshall stated his point to the
      administration was to include everything at one time and he didn't want 2 Master plans. He would like the
      Citizens to get engaged in the whole process that would require only 1 Master plan.

      Mayor Panepinto: Stated the resolution was passed January 2017 and the project was based on re doing
      the pool. He stated that he requested that we put them both at the same time because of the Land and Water
      Conservation money which are federal dollars.

      Charles Borchers: Informed the council that the application is in its second phase in which the 1st phase is
      reviewed by the state and the 2nd phase is reviewed by the National Park Service. He stated that these are
Federal dollars that are passed to the City for Zemurray Park improvements. It is a $250,000 grant application and a $250,000 match.

**Mayor Pete Panepinto:** Stated the goal is to get the pool running and that he believes it will take longer to do a Master plan.

**Councilman Mike Williams:** Stated that the public wants the pool and if we get the money for the pool why not go ahead and start with the pool.

**Councilman Lemar Marshall:** Stated that the council passed a resolution for a RFP to be done and at some point it may be changed due to the wording in a request for proposal. He stated the Mayor put together the Focus Group in order for the process to take place and start the Master plan RFP.

**Lacy Landrum:** Informed the council that there is not 2 Master plans but Architectural Design of the pool & a Master plan for the remainder of the park. She stated if you chose to move forward with the Master plan first before you complete any architectural design of the pool, then go through the planning process, and then to get a consultant it probably would not be completed until November or December. Dr. Landrum informed councilman Marshall that the council needs to determine the funding for the project and the funds should be set aside before an RFP is sent out - this is to be determined at the next meeting.

No Action required by the Council on this item

**B. NEW BUSINESS:**

1. A resolution to appoint Jennifer White to the Hammond Historic District Commission from March 29, 2017 – December 30, 2020, to fulfill the remainder of four-year term. Mayor Panepinto, presented this item. He first asked Ralph Ross to come to the podium. Mayor asked Ralph Ross about Jennifer White’s qualification to serve on the commission. The Mayor stated that Mr. Ross informed him that Mrs. White will do a good job on the commission.

**Ralph Ross:** Stated he was rethinking the appointment of Mrs. White and that they needed to review what the UDC and State says about the qualifications for nominations.

**Mayor Panepinto:** Informed Mr. Ross under our State statue and in our own guidelines it states that we should have 3 or more citizens or lay people. The Mayor stated that Mrs. White is a Biology teacher at Southeastern, resident of Hammond for 9yrs. He asked Mr. Ross how she is not qualified to be a lay person to serve on the commission.

**Ralph Ross:** Said the reaction he was getting in the neighborhood was astonishment that Jennifer White was being nominated. He stated he has a great deal of respect for Mrs. White. He stated In the Louisiana Certified local government guidelines, advertising is required to be in good faith for local appointments to the Historic District Commission.

**Mayor Panepinto:** Stated Jennifer White is replacing a lay person not a professional

**Councilman Jason Hood:** Asked if advertising is a requirement?

**Mayor Panepinto:** Asked City Attorney if there is something legally stating that advertising has to be done for this appointment?

**City Attorney Andre Coudrain:** Stated he looked at what Mr. Ross is referring to and also looked at the State statue on Historic District Commissions and reviewed the UDC Provisions and he informed the Mayor that he doesn’t thinks the City is required to advertise for this position under those provisions.

**Councilman Marshall:** Asked Attorney Coudrain why does he thinks the City is not required to advertise when the Louisiana Certified local government guidelines states it should be advertised under Good Faith Effort.

**Attorney Coudrain:** Responded that the guidelines deals with a membership in a program that is not applicable to the City’s requirements for Commission Members.

**Ralph Ross:** Asked Attorney Coudrain if he was referring to the Louisiana Certified Local Government Program. Mr. Ross stated if the City doesn’t keep up with the qualifications from the program the Historic District is no longer represented by the State.

**Attorney Coudrain:** Stated that in his opinion advertising for this position is not required because advertising is not required by state statute or city ordinance

**Councilman Mike Williams:** Asked if the members that were appointed, but not advertised, are they at risk
Councilman Marshall: Stated that what he understands from Mr. Ross is things may have been done in error and it should not continue. He would like the council and the administration to follow protocol.

Councilwoman Janice Carter Beard: Questioned whether the nominee has a personal stake in the Historic District. She stated we’re placing someone with a personal stake on the committee to make a decision on whether or not to expand the district.

Mayor Panepinto: Stated the Commission will not make the decision, the Council makes that decision.

Jessica Shirey: 202 Holly Drive, Hammond, Informed the council that the members of the Commission only made a decision on whether that proposed district was considered 2/3 Historic. She stated it was then sent to Planning & Zoning which then they did not recommend it to be expanded.

Councilwoman Janice Carter Beard: Stated that this item is still on the table and she personally doesn’t agree with putting somebody on the commission that has a personal stake.

Councilman Mike Williams: Stated that a person can be first opposed to the District, but later support it. He stated that everyone has seen the email from Mr. Ralph Ross but, he will read it for the record.

The Email:

Just confirmed that three Council members are adamantly against Jenn White's appointment.

A few of us plan to attend the Council meeting tomorrow night, but we shouldn’t have to say anything. Council will simply vote down Jenn’s appointment.

According to the rules, the vacancy should be advertised. Before that happens, I think it might be good if we offer resumes suggesting that Patty and Pat would both be perfect candidates. When/if the position does get advertised, it would be great if both Patty and Pat submit their names.

I’m thinking both of y’all just in case some bogus reason gets manufactured to eliminate one of you. Surely two bogus reasons would never fly?

--Ralph

Councilman Lemar Marshall: All of us as Councilmen Women meet with constituents and have conversation prior to a vote. He stated it was unfortunate that the email was published and wished it had not happened. Councilman Marshall stated council members can give opinions on how they intend to vote. He believes that Councilwoman Beard was stating we should not have individuals who are involved in this on the commission that’s for or against the expansion.

Lacy Lardrum: Informed the council that the Historic Commission is completely separate from the Study Committee for the Proposed Expansion. She stated that the Proposed Expansion does not go back before the Commission or the Study Committee - the Proposed Expansion if it comes back, it will come to the Council.

Councilman Mike Williams: The DDO is made up of property owners who has invested interest in that district. He stated having someone on the Historic District that has the best of interest in the Historic District to him is no different than someone serving on a Board of a Homeowner Association that has the best of interest of their neighborhood.

Mayor Panepinto: Citizens has concerns with Codes & Ordinances. Jennifer White followed the codes & ordinances when they renovated their home. Mayor Panepinto stated that he believes that Mrs. White is not opposed to the Historic District Expansion.

Councilman Lemar Marshall: Stated that Councilman Williams made a point that he agree with being consistent with policy. Councilman Marshall stated that there is a guideline in a policy that’s written with a Good Faith Effort to try to make this happen orderly. It’s important for the council to follow the rules and be in compliance to be in a Good Faith Effort.

City Attorney Andre Coudrain: If the City wants to have advertisement or other requirements the Council should pass the ordinance and until you adopt that policy it’s not binding.

Councilman Marshall: Asked if this is part of the Hammond Unified Development Code?

City Attorney, Andra Coudrain: Stated No

Councilman Lemar Marshall: Asked if the City has a process?
City Attorney, Andrea Coudrain: He stated there is a policy through State Statue and the Hammond Unified Development Code which was read. He stated whatever the council adopts will be the policy. The current policy is that there are 7 members all of whom shall be residents and they shall be appointed by the Mayor who is subject to the approval by the majority vote of the council. The members shall be appointed by the Mayor (1) Qualified Architect and (6) other citizens. In making appointments preference may be given as far as possible to members of Historic, Cultural, Educational, Archaeological etc., and organizations. Attorney Coudrain informed the council if they choose to have advertisement as a condition, they should pass that ordinance.

Councilman Marshall: Asked if we are required to follow Louisiana Certified Local Government Program Guideline?

Attorney Coudrain: Stated he doesn’t believe we are required to be in any program. He informed Councilman Marshall that the City may choose to be in that program.

Councilman Lemar Marshall: Asked if we were currently in the Louisiana Certified Local Government Program?

Leah, The Administrator Officer of the Historic District: She stated yes there are apparent Organizations but, we have our own Ordinances. We follow our own Ordinance which is the Mayor using a Good Faith Effort. Leah stated we could move forward with a different understanding once it’s codified.

Anthony Ronatazza, 600 East Robert Street, Hammond, LA.: Stated the City should adopt a policy for advertising. He stated he wants the City to compromise and one of the compromises is to appoint Jennifer White to the Commission. He would like to move forward collectively to bring this together as one Unified neighborhood and is asking the council to approve her appointment.

Ralph Ross: Stated that Jennifer would need a lot of training because she has been fighting a lot of these provisions and guidelines. Mr. Ross stated he thought differently about Mrs. White’s appointment as he spoke to others in neighborhood. The quote Mrs. White placed in the Newspaper that stated “The way to preserve this neighborhood is not to put it in the Historic District”, and Mr. Ross stated that this is contrary to what all the rest of them have been working on.

Jessica Suirey, 202 Holly Drive, Hammond: Stated she owns property in Historic District, is a member of the Commission, and has interest in Historic Renovation, and she is a lay person. She stated there should not be personal bias in deciding the appointment.

Councilman Lemar Marshall: Stated the council may need to tighten up procedures because of the possible Historic District Expansion.

Jennifer White, 601 East Charles Street: Stated she has never ever been against preservation. Mrs. White stated she did not want her property to be in the Historic District as the rules are currently written. She stated that she believes that there can be a compromise, and she desires to be on the Historic District Commission to help with those compromises. Mrs. White stated she has very genuine intentions simply to allow for some compromise in the neighborhood. She asked if the Council members could individually tell her if they opposed her appointment and what was their opposition?

Councilman Marshall: Asked if this item could be tabled

Councilman Mike Williams: Stated he supported Jennifer White’s appointment and he’s not sure if tabling it would be a good idea.

Councilwoman Janice Carter Beard: Stated she opposed the appointment due to the Expansion is still on the table and the Council is in the middle of it

Mayor Pete Panepinto: Suggested the item be tabled

Louise Bostic, 112 Elm Drive: Stated this discussion is an overkill and would not want this tabled.

V. REPORTS:

1. Council:
   A. Solicitation– Hammond Police Chief James Stewart was asked to report on the Panhandling issue
      in the City of Hammond. Chief Stewart stated that Panhandling is a problem but, not a huge
      problem. This is mostly at the 1-12 exchange and around convenience stores. On public access
      soliciting for money is not a crime, there must be a violation of traffic law or aggressive behavior.
      The problem is when it’s on Private Property. He suggested not to give money or food to
      panhandlers. Chief Stewart stated on private property police can come and check things out, and
      ask the person to leave the property in a friendly manner. If a person feels threatened, the
      panhandler can be arrested for threatening behavior. A balance has to be met between
      enforcement & asking a person to move on.

      Councilman Lemar Marshall: Asked will the Citizen be required to be present to make the
      complaint

      Chief Stewart: Stated that the citizen is not required to stay if they feel threaten, they should
      make sure that when they call in to provide a clear identity of the individual and the location.
Councilman Jason Hood: Panhandling paints city in a bad light. He asked if the city could put up a sign saying the City does not encourage panhandling with a contact number to call if anything needs to be reported.

Councilman Marshall Asked Mr. Gaiennie the purpose for changing the ordinance and how to distinguish modular homes from trailers

CC Gaiennie stated that there is currently no distinction between a modular home with a chassis and without a chassis. A no chassis modular building can brought in on a trailer picked up and set in place, Modular building without chassis can be set in place, the building code requires 4-12 pitch roof and it cannot be brought in with roof on it. He also stated a mobile home brought with chassis must be placed on a foundation which is only allowed in 4 districts. The districts are RS-11A which allows mobile homes, Heavy & Light Industrial, & Airport. He also informed the council that wheels would not be allowed in commercial zoned areas.

PUBLIC Comments:

Louise Bostic, 112 Elm Drive: Asked how definitions are different; why is modular with chassis not simply a mobile home?

CC Gaiennie there is no difference between those two in definition. He stated most modular homes come in multiple units and a mobile home usually is one unit.

Lacy Landrum: Modular homes must meet City’s Building Codes; mobile homes must only meet HUD standards

C.C. Gaiennie distinguished the differences of 3 types of buildings; 1) Modular with a chassis with wheels that are only allowed in 4 districts 2) mobile home only allowed in 1 district 3) Modular with no chassis

Louise Bostic: Asked about the approval of the mobile home double wide on Mississippi Street which seems to be is a modular home with chassis

C.C. Gaiennie: It met HUD Standards but, it did not meet City Standards

Louise Bostic: Where did definition come from?

C.C. Gaiennie: stated it came from the UDC the City just distinguished modular with no chassis is allowed

Council Lemar Marshall Asked Mr. Gaiennie why he would like to expand modular with chassis
C.C. Gaennie: Stated he wants to eliminate modular homes with a chassis; but he thought there was a court case which said the city can’t exclude them, just reduce them.

3. A discussion of the 2% hotel/motel occupancy tax to be levied by the Hammond Area Economic and Industrial Development District.

There were Public Comments:

Amy Hoyt, 401 Westin Oak Drive, Hammond, LA (Hampton Inn) 70403: Stated tax would add to the cost of hotels in the Hammond area. She stated that Hammond hotel rates are slightly higher on taxes than the surrounding areas and this will put the City of Hammond over 2% higher. This would lose occupancy and also have a domino effect which will not allow comp rooms to Southeastern & Chappapeela. There would be a negative effect on referrals to restaurants and adding $2 per room adds up quick and would affect group sales & sales to big companies.

Councilman Lemar Marshall: Asked what percentage of her business are from group sales
Amy Hoyt: Stated about 20% group sales and corporate business is about 65%. She stated they are worried about the bigger companies that are operating within a travel budget.

Joe Mier, President of the Hammond Area Economic and Industrial Development District, 44065 Live Oaks Trail: Stated that HAEIDD has two general missions which are to attract businesses & to retain and expand jobs in the existing businesses and industries in Hammond. Mr. Mier stated that economic prosperity requires a strategic approach to economic development. HAEIDD is operating from a non-recurring revenue stream and the City budget. This occupancy tax will be devoted to Hammond economic development and this 2% will not have a negative impact on the area. He stated Hammond amenities are worth the extra 2% tax. There is a 4% hotel/motel collected and directed to Tangipahoa Parish Tourism Commission. If passed on November 18th the funds will be devoted to economic development targeting new economic markets. This tax would create funds for economic needs and leverage federal grants and infrastructure improvements on future traffic needs. This tax would typically be paid by outside visitors and would attract new businesses & create jobs.

Councilwoman Janice Carter Beard: Asked if the Parish has an economic group? If so why does Hammond need one?

Joe Mier: Stated yes the Parish has an Economic Board but, HAEIDD is looking at Hammond first to bring business and development.

Councilwoman Janice Carter Beard: What would funds be used for?

Joe Mier: Stated for example these funds could be used for infrastructure or soft skills training for businesses.

Councilwoman Janice Carter Beard: Asked if our hotels the only businesses being targeted by this tax?

Joe Mier: Informed Councilwomen Beard yes hotels & campgrounds within the City Limits of Hammond.

Councilman Lemar Marshall: Asked would funds be used just for Hammond?

Joe Mier: Stated that the guidelines states it has to be used for Hammond economic development.

Councilman Lemar Marshall: Asked is there redundancy with HAEIDD & Parish Development Board any conversation about consolidation?

Jim Mier: Stated there have been no conflicts - the boards work well together.

**Video was shown concerning the Hammond Economic Industrial Development District**

Councilman Lemar Marshall: Stated it should look at economic development tax and just not hotel/motel tax.

Joe Mier: Stated he doesn’t think this this tax could put with property tax.

Councilman Lemar Marshall: Asked are there any other cities that are currently doing this for economic development.

Joe Mier: Stated yes

Councilman Lemar Marshall: Asked Mr. Mier to clarify if the entire 4% existing tax goes to economic development.

Amy Hoyt: Informed the council that of the 4% occupancy tax that the hotel collects none of this goes to the Tangipahoa Parish Economic Development, but all goes back to tourism to generate more tourism. The funds that goes to TEDI come from a visitor enterprise fund from the State of Louisiana.

Louise Bostic, 112 Elm Drive Hammond, LA: It will be difficult to vote for a tax that is going to support that connection from Pride Drive down University. There have been surveys showing the excessive traffic from Cherry St., to Morrison & numbers of accidents. The traffic is already backed up out of the subdivision.

David Fauchaux, 2 Longleaf Drive, Hammond L.A. 70401: Stated he’s a member of HAEIDD board and he retired from AT&T after 24yrs., to teach at Southeastern to make a difference for the students. This tax would help bring jobs. Hammond needs jobs to assist our students.

Councilwoman Janice Carter Beard: What would money be used for?

Nick Gagliano, 902 West Colorado St., Hammond, LA: There is a 4% Parish Lodging tax that goes on tourism commission, then a 5% State sales tax that goes to the state then each year the State decides whether to rebate it back to the Parish and that’s where the 25% come from which is not guaranteed.
Councilman Lemar Marshall: Why does State not give some back to HAEIDD?

Nick Gagliano: Stated he did not know that would be a question for the State.

Mayor: These tax dollars could be used to bring in new hotels

Nick Gagliano: Presented a Tax break down this is the entire 14% tax:
Parish Occupancy Tax: 4%
State Sales Tax: 5%
School Board: 2%
Parish Council: 2%
City of Hammond Sales Tax: 2%

PUBLIC HEARING:

I. An ordinance to amend the City of Hammond budget for Fiscal Year 2017 – 2018 to transfer up to $500,000 from the General Fund Balance (Fund 100) to City Departments to implement the 2017 Comprehensive Classification and Salary Compensation Study as produced by the Management Advisory Group. Lacy Landrum, informed the council that the Management Advisory Group International, Inc., (MAG) conducted a comprehensive salary and compensation review for the City of Hammond. In the original RFP some time lines were set to be completed and wrap into the budget for the current year. The timeline was not met by MAG for various challenges and the study was just now completed. There were two representatives from MAG to present the study. Dr. Landrum stated that the administration recommends to move forward with the report that each council member received by email and paper copy at the September 26, 2017 Council meeting.

David Lookingbill, Senior Vice President, Management Advisory Group Inc., 13580 Groupe Drive, Suite 200 Woodbridge, Virginia 22192:

Russell Campbell, Vice President, Management Advisory Group Inc., 13580 Groupe Drive, Suite 200 Woodbridge, Virginia 22192:

Mr. Lookingbill informed the council that this is the first time in at least 5 to 6yrs. that a comprehensive top to bottom study of both the civil service & general employee classification was performed. He thanked Lacy, Loretta, & Jacqueline and other staff who participated in the review. He informed the council that in this kind of project there are some things that MAG or either the staff have control over which is the salary survey process. He stated that MAG has to reach out to neighboring organizations and ask for information which requests are not received in a timely manner.

Russell Campbell: Stated that he thought it was very important that the council clearly understood the recommendation. In the process he wanted to keep the commitment that everyone was treated fairly not an exercise looking at individuals but, looking at jobs.

They presented the City Council with a Presentation of the MAG Review (Posted on City site under council October 10th Meeting)

Councilwoman Janice Carter Beard: Asked what was the reason for the review being late this year?

David Lookingbill: Stated this was the first time doing a Comprehensive complete overhaul of the entire structure which did not involve the salary survey project. This was completely dependent on the target corporations of different parishes.

Councilman Lumar Marshall: asked if the expectation was for the report to be completed prior to May

David Lookingbill: Stated yes but it was not met

Councilwoman Janice Carter Beard: asked if the target cities that were shown on the slideshow comparable to the City of Hammond in size
David Lookingbill: Stated they look at peers & competitors to look at different types of jobs. The competitors will be geographic and some of the targets are based on local market and some are selected on size and complexity of organization.

Loretta Severan: Stated that some of those cities from the last reviews that were on the slideshow and they had a hard time receiving information on the Jailer position.

Councilman Lumar Marshall: Asked about the salary & wages and what’s the benefit amount. Is that number available?

Lacy Landrum: (Reviewed print out with council) Informed the council that this is just the General Fund; everything but Water & Sewer. On the print out she stated there is an approved General & Amended General Fund. She presented just the General Fund - everything but Water & Sewer. The ending fund balance was $1.8 million the settlement was taking out, then the salaries under this example is $484,384.00 that’s if the City does 2% increase form steps from 1-23 and 1% increase from steps 24-30. She stated that the administration has been working with the Mayor for some time whether if they could change at the request of the police department and do 2% all the way to do 30. The second sheet that’s provided shows a total of $501,363.00 that would be for 2% increases all the way to step 30.

Councilwoman Janice Carter Beard: Asked why are they looking at going from 2% increase steps 1-23 to 1% increase steps 24-30?

Lacy Landrum: Stated the first example is what has been implemented since 2015 & the second is the requested plan. Also the other information she wanted to go over is the Water & Sewer Fund which is a self-contained fund trying to make this fund absorb the cost on its own. There has been a lot of challenges with the water meters finding out that the City software would need to be upgraded and it was not factored into the cost & the Mayor has proposed that this would be pushed to next fiscal year- this is a way to budget & balance the water & sewer fund.
