An ordinance prohibiting the parking on the streets of Hammond of busses engaged in transportation to and from the City of Hammond; requiring all such busses to use a common terminal; requiring the persons, firm or corporation owning said common bus terminal to provide proper waiting rooms, sanitary facilities, bus accommodations and service, and fixing the maximum charge for such service; providing for the operation of a parcel check room and providing what maximum charge shall be made for such service; requiring all bus companies operating in and out of said terminal to post in a conspicuous place printed or other legible form of schedules; establishing rules and regulations for the control and operation of said bus terminal; and providing penalties for the violation of the provisions of this ordinance.

WHEREAS, the increase in traffic over the streets of the City of Hammond requires regulation, supervision and control, to the end that the public safety and welfare may be preserved and conserved; and

WHEREAS, the transportation of passengers for hire by motor busses and other motor propelled vehicles, operating other than by rail, between the City of Hammond and points outside of the Parish of Tangipahoa, has greatly increased, is constantly increasing, and should be encouraged; and

WHEREAS, the parking of large passenger busses used in such transportation impairs the free movement of automobiles and impedes traffic on the streets of this city, and such busses should therefore be required to use a definite and common terminal; and

WHEREAS, it is to the interest and convenience of the people of the State of Louisiana and the citizens of the City of Hammond to require that all busses operating out of and into the City of Hammond use a common terminal; and

WHEREAS, there now exists in this city a terminus in a location accessible to the citizens and so situated as not to impede or interfere with traffic, which said terminus is sufficiently large to accommodate the needs of all bus lines operating into and out of this city, which said terminus can be made available for such bus lines at a nominal cost to all parties concerned, therefore

BE IT ORDAINED BY THE COMMISSION COUNCIL OF THE CITY OF HAMMOND:

SECTION 1: That from and after the passage of this ordinance it shall be unlawful for any bus operated by motive power and which operate between Hammond, Tangipahoa Parish, and any other city, town, village, parish or parishes, or other states, to park on the streets of the City of Hammond; provided, however, that nothing in this section shall be construed so as to prohibit such busses from stopping to discharge or take on passengers.

SECTION 2: That from and after the passage of this ordinance, all bus lines operating into and out of the City of Hammond shall be and they are hereby required to use a common terminal, the said terminal being hereby designated and fixed at No. 114 West Gate Avenue, in the square bounded by West Gate Avenue, Thomas Street, Morris Avenue and Oak Street.

SECTION 3: That for the use of said terminal facilities, all busses operating in and out of said station shall pay to the person, firm or corporation, or other operators of said terminal, a charge to be mutually agreed upon.
SECTION 4: That the person, firm or corporation operating the said premises hereinafore designated as a common terminal, to-wit, 114 West Cate Avenue, its successors or assigns, are hereby required to furnish ample accommodations, both day and night, for all buses and bus lines operating into and out of this city, desiring and requiring the use of said common terminal, and the said operator, its successors and assigns, is hereby required to furnish gasoline as required by all bus lines operating in and out of said terminal, at a price not to exceed the market price thereof.

SECTION 5: That all bus lines operating in and out of said common terminal are hereby required to furnish to the operator thereof, its successors or assigns, a schedule of its arrivals and departures, and it is hereby made the duty of the said operator, its successors or assigns, to display in a conspicuous manner and at an accessible point in said building all schedules so furnished to it by the bus lines operating in and out of said terminal. Any bus line changing its schedule is required to report such change in writing, immediately, to the operator, its successors or assigns, who shall then immediately make note of and post such notification and change of schedule.

SECTION 6: That the operator, its successors and assigns, is hereby required to provide suitable, adequate and separate waiting rooms for persons of both the white and colored races, and shall further provide proper and necessary heating accommodations in the winter, and shall properly and adequately keep said premises illuminated at hours when buses are operated in and out of the building. It shall likewise provide all proper and necessary and ample sanitary arrangements in the way of toilets, etc., as may be hereafter required by the Board of Health, and the said operator, its successors and assigns, shall at all times comply with all sanitary rules and regulations of the City Board of Health and of the State Board of Health.

SECTION 7: That the operator, its successors and assigns, are hereby authorized and empowered to receive and check packages and parcels delivered to or deposited with it by persons using or intending to use buses operating in and out of said common terminal, and for such service they are hereby permitted to charge ten cents (10¢) for each package, not to exceed in outer measurements eighteen (18) inches by twenty-four (24) inches, and not to exceed more than thirty (30) pounds in weight, said charge to be based on a period of twenty-four hours or any portion thereof. For all packages exceeding either in size or weight the limits hereinafore set forth, there may be charged an additional ten cents (10¢) for each twenty-four hours, its successor or fraction, as part thereof. It shall be the duty of the said operator, its successors or assigns, to furnish to each person depositing any package or article for storage a numbered coupon or claim check sufficient for the holder thereof to identify his property. Such package or parcel room shall be operated or shall be open at all times during which buses are operated in and out of the common terminal, but may be closed between any period of time during which no buses are being operated; provided further that said operator shall be permitted to limit in a reasonable manner its liability as to the value of the packages and parcels deposited with it to any reasonable amount.

SECTION 8: That the Commission Council expressly reserves to itself the right to hereafter change the location of the common bus terminal as herein provided, upon giving thirty (30) days notice of its intention so to do, and after giving all parties having an interest in the matter an opportunity to be heard.

The following ordinance was offered by Commissioner Carter, who moved its adoption:

An ordinance granting to Louisiana Power & Light Company, its successors and assigns, a franchise, right and privilege for a period of twenty-five (25) years from the date of adoption hereof, to supply natural and/or artificial gas to the City of Hammond, Louisiana, and the inhabitants thereof, or any person or corporation, and to acquire or construct, operate and maintain such plants, structures, distribution systems and equipment as may be useful or necessary for the manufacture, transportation, distribution and/or sale, or natural and/or artificial gas in the City of Hammond, Louisiana, and the right to lay, operate and maintain mains, pipes, conductors, meters, connections and any and all other appliances useful or necessary for the transportation and/or distribution and/or sale of natural and/or artificial gas in, over, under, along, upon and across all of the present and/or future streets, roads, highways, alleys and public places of the City of Hammond, Louisiana, and the right to excavate therein for the purpose of laying, repairing, replacing or removing such pipes and appliances, or any portion thereof, and the right to connect any such mains or pipes to any other mains or pipes for the purpose of transporting natural and/or artificial gas into, through beyond the corporate limits of the municipality.

SECTION 1: BE IT ORDAINED BY THE COMMISSION COUNCIL OF THE CITY OF HAMMOND, LOUISIANA, in legal session convened, that the City of Hammond, Louisiana, hereinafter called the "Municipality", grants and there is hereby granted to Louisiana Power & Light Company, its successors and assigns, hereinafter called the "Company", a franchise, right and privilege, for a period of twenty-five years from date of adoption hereof, to supply natural and/or artificial gas to the municipality and the inhabitants thereof, or any person or corporation, and to acquire or construct, operate and maintain such plants, structures, distribution systems
and equipment as may be useful or necessary for the manufacture, transportation, distribution and/or sale of natural and/or artificial gas in and through the City of Hammond, Louisiana, and the right to lay, operate and maintain mains, pipes, conductors, laterals, feeders, regulators, meters, fixtures, connections and any and all other appliances useful or necessary for the transportation and/or distribution and/or sale of natural and/or artificial gas in, over, under, along, upon and across all the present and/or future streets, roads, highways, alleys, and public places of the City of Hammond, Louisiana, and the right to excavate therein for the purpose of laying, repairing, replacing or removing such pipes and appliances, or any portion thereof, and the right to connect any such mains or pipes to any other mains or pipes for the purpose of transporting natural and/or artificial gas into, through or beyond the corporate limits of the Municipality.

SECTION 2. BE IT FURTHER ORDAINED, ETC., That this franchise is granted subject to the following provisions:

1. In maintaining its properties the Company shall not unnecessarily impair or obstruct the streets, alleys, sidewalks, and public grounds and the Company shall, at its own expense, without unreasonable delay, make all necessary repairs to remedy any damage or remove any obstruction caused by its operation hereunder.

2. All excavations shall be refilled and all sidewalks and pavement shall be replaced and relaid in the condition they were found when excavated or taken up; and all the aforesaid operations shall be under the supervision of the municipal authorities and subject to their inspection, and reasonable approval; no excavation shall be made in any street for the deposit of such service pipes or mains, when there is an alley within one hundred (100) feet of such street paralleling the same; whenever practicable, such service pipes and mains shall be deposited in alleys instead of streets, but the company shall not be required to make such use of alleys unless the same are opened from street to street; and that no street, alley, sidewalk, pavement, avenue, highway, and public ground shall be opened, excavated, or taken up until the Company is prepared to lay service pipes and mains without delay in the immediate locality.

3. The Company shall comply with all rules and regulations that are now, or may hereafter be, in force, with reference to the laying of pipes and mains and other works, and all pipes shall be laid not less than fifteen inches below the surface of the earth and in such a way as not to interfere with the water or sewer pipes now laid, or drainage; and if the streets of the municipality are hereafter graded and it becomes necessary to lower the said mains, the same shall be thus lowered by the Company at its cost.
4. The Company shall use all reasonable and proper precautions to avoid damage or injury to persons or property, and shall hold and save harmless the Municipality from all damages, losses or expenses caused by the negligence of the Company, its agents or employees, while exercising any of the rights herein granted.

5. The Company shall not discriminate against any inhabitant of the municipality in the supply of gas, and shall during the term of this franchise supply gas in accordance with the terms hereof, to any inhabitant within a reasonable time after demand therefor; provided, that the Company shall not be required to extend its distribution system more than one hundred feet to serve any applicant.

6. The Company shall have the right to refuse to supply gas to any person, firm or corporation demanding service, unless said person, firm or corporation shall agree to use the gas furnished by the Company for its or their own legitimate purposes, and in no event for resale without the express consent of the company.

7. The Company shall at its own expense make all taps to the gas mains, furnish and lay and pipe from the mains to the customer's property line and furnish and install all necessary meters for all gas service connections; provided, that the company shall not be required to install a service connection more than fifty feet in length. All piping, connections and appliances from the end of said service connection shall be furnished, installed and maintained by the customer. If a customer discontinues taking gas service from the company and the same customer applies for reconnection at the same location within one year from the date of the discontinuance, the company may require the customer to pay the sum of Five Dollars ($5.00) before such connection is made.

8. The Company shall have the right to require each customer hereafter connected or reconnected to deposit with it a sum sufficient to insure prompt payment of such customer's monthly bill, which deposit will in no event be less than Five Dollars ($5.00). If the amount of such deposit, as originally made, proves to be less than the customer's monthly bill, the company shall have the right to require such customer to increase such deposit to an amount not to exceed one and one-half (1\frac{1}{2}) times such monthly bill. The company shall refund such deposit together with five per cent per annum interest thereon, less any bill or bills unpaid, when service to such customer is discontinued.

9. The Company shall have the right to discontinue the supply of gas to any customer at any time for repairs, non-payment of bills when due, fraudulent representation in relation to the consumption or use of gas, failure to make deposit when required, tempering or permitting tempering with any meter, service pipes or other pipes through which gas is served, placing or permitting the placing of any substance as an obstruction in any meter, service pipes or other pipes, willfully permitting service pipes, connections or appliances to leak or otherwise permit the escape or waste of gas, or for failure to comply with such reasonable rules and regulations as the company may from time to time establish. The Company will not be required to reconnect any such customer unless and until each cause for disconnection shall have been removed, cured or rectified, and shall have the right to collect a reasonable charge for expenses, damage and/or loss resulting therefrom.
SECTION 3. BE IT FURTHER ORDAINED, ETC., That this franchise is granted with the full knowledge and understanding on the part of the Municipality that the gas to be supplied by the Company is not to be secured from sources owned by the Company, but is to be acquired by the Company from others through pipe lines, that therefore, the supply of gas may be interrupted or discontinued by causes beyond the control of the Company, and in the event of such interruption or discontinuance the Company shall not be liable to the Municipality or any inhabitant thereof, or any person or corporation, for any damage or loss whatsoever.

SECTION 4. BE IT FURTHER ORDAINED, ETC., That in consideration of the construction and operation of a gas distribution system in the Municipality the Company shall have the right, until changed, according to law, to collect the following maximum rates and charges for natural gas service, which rates and charges are hereby declared to be just and reasonable, under existing conditions, viz.:

ORDINANCE NO. 167, COMMISSION SERIES:

An ordinance regulating the business of selling, handling and distributing beer, porter, ale, fruit juices and wine of an alcoholic content not exceeding that which is now or may hereafter be permitted by law, but greater than one-half of one per centum of alcohol by volume; providing for the issuance of permits; who shall be permitted to be licensed; fixing the fees for the issuance of permits to wholesalers, jobbers and retailers; requiring a bond from retail dealers; providing for cash deposits by retail dealers; levying a license tax of Fifty Cents ($0.50) per barrel of thirty-one (31) standard gallons for every barrel sold, handled, used, consumed or distributed in the City; providing the method of payment of the same; requiring retailers to file sworn statements of sales; providing two license periods annually; authorizing tax collectors to inspect books and records of wholesalers, jobbers, and retailers; providing for the collection of the unpaid license taxes by rule; authorizing search and seizure of beverages for evidence and payment of unpaid license taxes; providing penalties for the violation of any of the provisions of this ordinance, the omission of any act required; selling beverages without a permit, selling beverages without paying a license tax, failure to file monthly statements and the making of a false or incorrect monthly statement of sales; providing for the cancellation or suspension of permits by the city, the barring of persons from employment by retailers, and the barring of places for use in selling beverages; prescribing the grounds upon which the city may cancel, suspend or bar; relieving the city from payment of costs in legal proceedings hereunder; authorizing the city to prepare appropriate forms; and repealing ordinances inconsistent or in conflict herewith.

BE IT ORDAINED BY THE COMMISSION COUNCIL OF THE CITY OF HAMMOND:

SECTION 1: Effective noon, April 13, 1933, the business of selling, handling and distributing beer, porter, ale, fruit juices and wine of an alcoholic content not exceeding that which is now, or may hereafter, be permitted by law, but greater than one-half of one per centum of alcohol by volume, is prohibited unless conducted and carried on conformably to the following provisions.

SECTION 2: Any person, firm or corporation desiring to engage in the business of selling, handling or distributing said beverages shall, prior to the beginning of each license period, apply to the Commission Council for a permit so to do. If the Commission Council is convinced that the applicant, if a natural person, is a citizen of the United States and a bona fide resident of the City of Hammond, is of good moral character, reliable and responsible and may be depended on to conduct the business conformably to this ordinance, or others hereafter adopted, and the Federal and State laws on the same subject, and is financially able to meet the obligations imposed on him by said laws, or if a corporation, is authorized to do business in the city, and if the officers or agent thereof conform to such qualifications as are required of individuals, it may issue a permit to said person to engage in said business during the license period for which granted, or so long during said period as he complies with said laws and this ordinance. If a firm or corporation applies for a permit the qualifications hereinabove named shall be met by the officers and agents of said firm or corporation responsible for and actively engaged in the business aforesaid.
SECTION 3: Every application for a permit shall state the exact location it is desired to conduct the business aforesaid, and the permit shall be confined to said location, provided that the said Council may deny the application for such permit because the proposed location is an improper one, or because of its construction, or because the interior is not open to public view, or for other reasons it is deemed difficult of police regulation, or offensive to the neighborhood, or apt to become a nuisance, too near churches, schools or other similar institutions, or for other reasons which it deems for the manifest best interest of the community and city and public policy and morals. No change in location shall be allowed under a permit once granted, but a new application shall be presented if another location is desired and the matter handled as in the case of an original application.

SECTION 4: Permits shall be issued for jobbers, wholesale and retail dealers. Jobbers and wholesale dealers are defined as those who sell to others for resale, whether from a fixed place of business or from trucks or other vehicles. A retailer is one who sells to the consumer and not for resale, whether the beverage is consumed on the premises or not. For each license period of six months the following fees for permits are hereby required to be paid:

For jobbers and wholesalers: Twenty-five Dollars ($25.00) for each six months license period:

For retailers: Twelve Dollars and Fifty Cents ($12.50) for each six months license period:

Permits applied for and granted after the beginning of a license period shall be charged for a license period of six months.

SECTION 5: A bond, with surety satisfactory to the Council, in the sum of One Hundred and Fifty Dollars ($150.00) shall be furnished and filed with the city as a condition precedent to the issuance of a retailer's permit, the bond to be conditioned upon the prompt payment of all license taxes, fines and penalties due the city as hereinafter provided.

SECTION 6: As a further condition precedent to the issuance of a retail permit the applicant shall deposit with the Mayor the sum of Twelve Dollars and Fifty Cents ($12.50) in prepayment of the license taxes that may be found to be due at the end of the first license period, or at the date of the discontinuance of business by the retailer. At the beginning of the subsequent license periods the amount to be advanced and deposited shall be equal to the license tax paid during the preceding period. If the retailer has been in business less than the full period the tax collector shall estimate what the total sales for the full period would have been, based upon the sales for the time in which he was engaged in business, and shall require the amount so estimated to be deposited.

If the amount prepaid is insufficient to cover all license taxes due at the end of the period the retailer shall within ten days after the expiration of the license period pay the balance due. (If the amount prepaid is more than necessary to cover all license due at the end of the license period the overplus shall be returned to the retailer within ten days after the furnishing of proof showing the amount due.)
The amount of license tax to be paid by the retailer and which is hereby levied on the selling, handling and distributing of beer, porter, ale, fruit juices and wine of an alcoholic content not exceeding that which is now, or may hereafter be permitted by law, but greater than one-half of one per centum of alcohol by volume, shall be Fifty Cents ($0.50) per barrel of thirty-one (31) standard gallons for every barrel sold, handled, used, consumed or distributed in the city, to be collected by the tax collector.

SECTION 8: Every retailer shall file with the tax collector by the 10th day of the month following a sworn statement of the number of barrels of said beverages sold by him during each month.

SECTION 9: There shall be two license periods. January First to June Thirtieth, inclusive, shall constitute the first, and July First to December Thirty-first, inclusive, shall constitute the second. Retail license taxes shall be due and payable July 10th and January 10th, after which the retailer shall be subject to a penalty of twenty per centum and an additional ten per centum as attorney's fees when placed in the hands of an attorney for the tax collector for collection. Any of said beverages in the possession of the retailer, owned by him, or under his control or supervision, may be seized and sold to satisfy the unpaid license tax.

SECTION 10: The tax collector shall have the right to inspect any and all books and records of the said retailer to determine the amount of license tax, and, for this purpose, is authorized to examine and inspect records of wholesalers and jobbers, and to question said wholesalers and jobbers in order to determine the amount of license tax due by the retailers.

SECTION 11: The tax collector may proceed by rule against the said retailer to show cause within five days why the license tax should not be paid as determined by the said tax collector.

SECTION 12: The police and all other peace officers shall have the right to search and examine any and all places of storage, including any warehouse, boat, store, store room, or vehicle connected with the business of said retailer, and to seize any of said beverages to be held for evidence and for payment of delinquent license taxes pending the final disposition of the court proceeding.

SECTION 13: The following acts and omissions are hereby declared to be unlawful, and in event of conviction, punishable by fine not exceeding One Hundred Dollars ($100.00), or imprisonment not exceeding thirty (30) days, or both, at the discretion of the Court, to-wit:

(a) The violation of any of the provisions of this or other ordinances hereafter adopted, regulating such business.
(b) The commission of any act or the doing of anything forbidden by this ordinance.
(c) The failure to perform any act or to do anything required to be performed or done by this ordinance.
(d) The selling of any of the beverages named in Section One without a permit from the city so to do.
(e) The failure to pay the license tax herein imposed.
(f) The failure to file the monthly statement of sales required of retailers.
(g) The making of a false or incorrect monthly statement of sales as required by retailers.
SECTION 14: For the violation of any of the provisions of this ordinance, in addition to the other penalties prescribed, after hearing, the Council may, in its discretion, cancel or suspend the permit of any retailer for a period of time to be fixed by it, not to exceed the remainder of the license period and may bar the retailer from securing a new permit for a period not exceeding one year.

SECTION 15: In addition to the grounds named in the preceding section the Council may cancel or suspend the permit when it appears that:

(a) The retailer is conducting his business in a disorderly manner, permitting disturbances of the peace, and the operation of the business as a disorderly house and in such manner as to disturb the public peace and quiet of the neighborhood.

(b) The retailer is permitting the loitering in and around his place of business of persons in an intoxicated condition, or otherwise.

(c) The retailer is violating or permitting to be violated the Federal laws against intoxicating liquors.

(d) The retailer is violating or permitting to be violated any of the state laws against gambling, lotteries and slot machines.

(e) If the retailer violates or permits to be violated any other state laws or other laws involving moral turpitude.

SECTION 16: On any of the grounds named in Sections 14 and 15 and in proceedings therein named, the Council may, in addition to cancelling or suspending the permit of the holder, issue its decree prohibiting the use of the premises involved for the sale of the beverages named in Section 1, for a period not exceeding one year. The Council may suspend the operation of said decree if the owner furnishes bond in a sum to be fixed by it, conditioned upon the future non-violation of the provisions of this ordinance. This bond shall be for a period not exceeding one year. This bond may be ordered forfeited by the Court in any criminal or direct proceeding hereunder.

SECTION 17: When a permit is cancelled or suspended by the Council it may also prohibit, during the period of cancellation or suspension, or for a period not exceeding one year, the retailer and any of his employees guilty of participating in the violation for which the permit was cancelled or suspended, from becoming an employee of any other retailer.

SECTION 18: No costs shall be assessed against the city in any proceeding hereunder, whether for a criminal proceeding, a direct proceeding for cancellation of permit, bond forfeiture or false to collect delinquent licenses.

SECTION 19: The city is authorized to prepare appropriate application, permit and report forms, and said application blanks may include endorsements by qualified tax paying voters.

SECTION 20: The declaration of any portion of this ordinance as being unconstitutional shall not affect any other portion thereof.

SECTION 21: Any ordinance in conflict or inconsistent herewith is hereby repealed. This ordinance being adopted for the immediate preservation of the public peace, shall be effective when adopted.

Adopted April 11th, 1933. Published April 14th, 1933.
