The Paying Agent is hereby directed to execute said Letter of Representation. The terms and provisions of said Letter of Representation shall govern in the event of any inconsistency between the provisions of this Bond Ordinance and said Letter of Representation. Notwithstanding anything to the contrary herein, while the Bonds are issued in book-entry-only form, the payment of principal of, premium, if any, and interest on the Bonds may be payable by the Paying Agent by wire transfer to DTC in accordance with the Letter of Representation.

For every transfer and exchange of the Bonds, the Beneficial Owner may be charged a sum sufficient to cover such Beneficial Owner's allocable share of any tax, fee or other governmental charge that may be imposed in relation thereto.

Bond certificates are required to be delivered to and registered in the name of the Beneficial Owner under the following circumstances:

(b) The Issuer determines that continuation of the system of book-entry transfer through DTC (or a successor securities depository) is not in the best interests of the Issuer and/or the Beneficial Owners.

The Issuer and the Paying Agent will recognize DTC or its nominee as the Bondholder for all purposes, including notices and voting.

Neither the Issuer or the Paying Agent are responsible for the performance by DTC of any of its obligations, including, without limitation, the payment of moneys received by DTC, the forwarding of notices received by DTC or the giving of any consent or proxy in lieu of consent.

Whenever during the term of the Bonds the beneficial ownership thereof is determined by a book entry at DTC, the requirements of this Bond Ordinance of holding, delivering or transferring the Bonds shall be deemed modified to require the appropriate person to meet the requirements of DTC as to registering or transferring the book entry to produce the same effect.
If at any time DTC ceases to hold the Bonds, all references herein to DTC shall be of no further force or effect.

SECTION 2.7. Payment of Principal and Interest [tc \l2 "SECTION Field result goes here Payment of Principal and Interest"]. The principal and premium, if any, of the Bonds are payable in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts at the principal corporate trust office of the Paying Agent, upon presentation and surrender thereof. Interest on the Bonds is payable by check mailed on or before the Interest Payment Date by the Paying Agent to each Owner (determined as of the close of business on the applicable Record Date) at the address of such Owner as it appears on the registration books of the Paying Agent maintained for such purpose. Except as otherwise provided in this Section, Bonds shall bear interest from date thereof or from the most recent Interest Payment Date to which interest has been paid or duly provided for, as the case may be, provided, however, that if and to the extent that the Issuer shall default in the payment of the interest on any Bonds due on any Interest Payment Date, then all such Bonds shall bear interest from the most recent Interest Payment Date to which interest has been paid on the Bonds, or if no interest has been paid on the Bonds, from their dated date. The Person in whose name any Bond is registered at the close of business on the Record Date with respect to an Interest Payment Date shall in all cases be entitled to receive the interest payable on such Interest Payment Date (unless such Bond has been called for redemption on a redemption date which is prior to such Interest Payment Date) notwithstanding the cancellation of such Bond upon any registration of transfer or exchange thereof subsequent to such Record Date and prior to such Interest Payment Date.

ARTICLE III

GENERAL TERMS AND PROVISIONS OF THE BONDS

SECTION 3.1. Exchange of Bonds; Persons Treated as Owners [tc \l2 "SECTION Field result goes here Exchange of Bonds; Persons Treated as Owners"]. The Issuer shall cause books for the registration and for the registration of transfer of the Bonds as provided in this Bond Ordinance to be kept by the Paying Agent at its principal corporate trust office, and the Paying Agent is hereby constituted and appointed the registrar for the Bonds. At reasonable times and under reasonable regulations established by the Paying Agent said list may be inspected and copied by the Issuer or by the Owners (or a designated representative thereof) of 15% of the outstanding principal amount of the Bonds. Upon surrender for registration of transfer of any Bond, the Paying Agent shall register and deliver in the name of the transferee or transferees one or more new fully registered Bonds of authorized denomination of the same maturity and like aggregate principal amount. At the option of the Owner, Bonds may be exchanged for other Bonds of authorized denominations of the same maturity and like aggregate principal amount, upon surrender of the Bonds to be exchanged at the principal corporate trust office of the Paying Agent. Whenever any Bonds are so surrendered for exchange, the Paying Agent shall register and deliver in exchange therefor the Bond or Bonds which the Owner making the exchange shall be entitled to receive. All Bonds presented for registration of transfer or exchange shall be accompanied by a written instrument or instruments of transfer in form and with a guaranty of signature satisfactory to the Paying Agent, duly executed by the Owner or his attorney duly authorized in writing.

All Bonds delivered upon any registration of transfer or exchange of Bonds shall be valid obligations of the Issuer, evidencing the same debt and entitled to the same benefits under this Bond Ordinance as the Bonds surrendered. Prior to due presentment for registration of transfer of any Bond, the Issuer and the Paying Agent, and any agent of the Issuer or the Paying Agent may deem and treat the person in whose name any Bond is registered as the absolute owner thereof for all purposes, whether or not such Bond shall be overdue, and shall not be bound by any notice to the contrary.

No service charge to the Owners shall be made by the Paying Agent for any exchange or registration of transfer of Bonds. The Paying Agent may require payment by the Person requesting an exchange or registration of transfer of Bonds of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto. The
Issuer and the Paying Agent shall not be required (a) to issue, register the transfer of or exchange any Bond during a period beginning at the opening of business on the 15th calendar day of the month next preceding an Interest Payment Date or any date of selection of Bonds to be redeemed and being at that time or any other day on which the applicable notice of redemption is given or (b) to register the transfer of or exchange any Bond so selected for redemption in whole or in part.

SECTION 3.2. Bonds Mutilated, Destroyed, Stolen or Lost (tc 12 § 3.2) "SECTION Field result goes here. Bonds Mutilated, Destroyed, Stolen or Lost). In case any Bond shall become mutilated or be improperly cancelled, or be destroyed, stolen or lost, the Issuer may in its discretion, and by resolution or ordinance, and thereby authorize the issuance and delivery in of a new Bond in exchange for and substitution for such mutilated or improperly cancelled Bond, or in lieu of and in substitution for the Bond destroyed, stolen or lost, upon the Owner (i) furnishing the Issuer and the Paying Agent proof of his ownership thereof and proof of such mutilation, improper cancellation, destruction, theft or loss satisfactory to the Issuer and the Paying Agent, (ii) giving to the Issuer and the Paying Agent an indemnity bond in favor of the Issuer and the Paying Agent in such amount as the Issuer may require, (iii) compliance with such other reasonable regulations and conditions as the Issuer may prescribe and (iv) paying such expenses as the Issuer and the Paying Agent may incur. All Bonds so surrendered shall be delivered to the Paying Agent for cancellation pursuant to Section 3.4 hereof. If any Bond shall have matured or be about to mature, instead of issuing a substitute Bond, the Issuer may pay the same, upon being indemnified as aforesaid, and if such Bond be lost, stolen or destroyed, without surrender thereof. Any such duplicate Bond issued pursuant to this Section shall constitute an original, additional, contractual obligation on the part of the Issuer, whether or not the lost, stolen or destroyed Bond be at any time found by anyone. Such duplicate Bond shall be in all respects identical with those replaced except that it shall bear on its face the following additional clause: "This bond is issued to replace a lost, cancelled or destroyed bond under the authority of R.S. 39:971 through 39:974."

Such duplicate Bond may be signed by the facsimile signatures of the same officers who signed the original Bonds, provided, however, that in the event the officers who executed the original Bonds are no longer in office, then the new Bonds may be signed by the officers then in office. Such duplicate Bonds shall be entitled to all and proportionate benefits and rights as to lien and source and security for payment as provided herein with respect to all other Bonds hereunder, the obligations of the Issuer upon the duplicate Bonds being identical to its obligations upon the original Bonds and the rights of the Owner of the duplicate Bonds being the same as those conferred by the original Bonds.

SECTION 3.3. Cancellation of Bonds (tc 12 § 3.3) "SECTION Field result goes here. Cancellation of Bonds). All Bonds paid or redeemed either at or before maturity, together with all Bonds purchased by the Issuer, shall thereupon be promptly cancelled by the Paying Agent. The Paying Agent shall thereupon promptly furnish to the Secretary of the Issuer an appropriate certificate of cancellation.

SECTION 3.4. Execution (tc 12 § 3.4) "SECTION Field result goes here. Execution). The Bonds shall be executed in the name and on behalf of the Issuer by the manual or facsimile signatures of the Executive Officers, and the corporate seal of the Issuer (or a facsimile thereof) shall be thereunto affixed, imprinted, engraved or otherwise reproduced thereon. In case any one of the Officers may die, resign or become unable to discharge his duties, the Issuer may appoint a successor to his position. Each Bond shall be signed and sealed and shall have been actually delivered, such Bonds may, nevertheless, be delivered as herein provided, and may be issued as if the person who signed or sealed such Bonds had not ceased to hold such office. Said officers shall, by the execution of the Bonds, adopt as and for their own proper signatures their respective facsimile signatures appearing on the Bonds or any legal opinion certificate thereon, and the Issuer may adopt and use for that purpose the facsimile signature of any person or persons who shall have been such officer at any time on or after the date of such Bond, notwithstanding that at the date of such Bond such person may not have held such office or that at the time when such Bond shall be delivered such person may have ceased to hold such office.

SECTION 3.5. Registration by Paying Agent (tc 12 § 3.5) "SECTION Field result goes here. Registration by Paying Agent). (a) No Bond shall be valid or obligatory for any purpose or entitled to any security or benefit under this Bond Ordinance unless and until a certificate of registration on such Bond substantially in the form set forth in Exhibit C hereto shall have been duly manually executed on behalf of the Paying Agent by a duly authorized signatory, and such executed certificate of the Paying Agent upon any such Bond shall be conclusive evidence that such Bond has been executed, registered and delivered under this Bond Ordinance.

SECTION 3.6. Regularity of Proceedings (tc 12 § 3.6) "SECTION Field result goes here. Regularity of Proceedings). The Issuer, having investigated the regularity of the proceedings had in connection with the issuance of the Bonds, and having determined the same to be regular, each of the Bonds shall contain the following recital, to-wit:

"It is certified that this bond is authorized and is issued in conformity with the requirements of the Constitution and statutes of this State."

ARTICLE IV
PAYMENT OF BONDS; DISPOSITION OF FUNDS

SECTION 4.1. Deposit of Funds with Paying Agent (tc 12 § 4.1) "SECTION Field result goes here. Deposit of Funds With Paying Agent). The Issuer covenants that it will deposit or cause to be deposited with the Paying Agent from the moneys derived from the Net Revenues of the Tax or other funds available for such purpose, at least three (3) days in advance of each Interest Payment Date, funds fully sufficient to pay promptly the principal, premium, if any, and interest so falling due on the Bonds and the Outstanding Parity Bonds on such date.

SECTION 4.2. Issuer Obligated to Collect Tax (tc 12 § 4.2) "SECTION Field result goes here. Issuer Obligated to Collect Tax). In compliance with the laws of Louisiana, the Issuer, by proper ordinances and/or resolutions, is obligated to cause the Tax to continue to be levied and collected for the full period of its authorization until all of the Bonds and the Outstanding Parity Bonds have been retired, and interest, and further shall not discontinue or decrease or permit to be discontinued or decreased the Tax in anticipation of the collection of which the Bonds have been issued, nor in any case make any change which would diminish the amount of the Revenues of the Tax to be received by the Issuer until all of the Bonds and the Outstanding Parity Bonds have been retired as to both principal and interest.
SECTION 4.3. (to i2 "SECTION Field result goes here ) Funds and Accounts. In order that the principal of and the interest on the Bonds will be paid in accordance with their terms and for the other objects and purposes hereinafter provided, the Issuer further covenants as follows:

All of the avails or proceeds derived from the levy and collection of the 1967 Tax and the 1982 Tax shall be deposited daily as the same may be collected in a separate and special bank account maintained with the regularly designated fiscal agent of the Issuer, and to be known as the A Combined Sales Tax Fund(s), and shall be maintained and administered in the following order of priority and for the purposes set out below. The Combined Sales Tax Fund shall constitute a dedicated fund of the Issuer, from which appropriations and expenditures by the Issuer shall be made solely for the purposes designated in the propositions authorizing the levy of the Tax, including the payment of the Bonds.

Out of the funds on deposit in the Combined Sales Tax Fund, the Issuer shall first pay all reasonable and necessary costs and expenses of collection and administration of the Tax. After payment of such costs and expenses, the remaining balance of the proceeds of the Tax on deposit in such Fund shall be administered and used in the following order of priority and for the following express purposes:

(a) The maintenance of a Sales Tax Bond Sinking Fund (hereinafter called the A Sinking Funds), sufficient in amount to pay promptly and fully the principal of and the interest on the Bonds, the Outstanding Parity Bonds and any Additional Parity Bonds, as they severally become due and payable, by transferring from the Combined Sales Tax Fund to the regularly designated fiscal agent of the Issuer, in advance on or before the 20th day of each month, a sum equal to the prorata amount of interest falling due on such bonds on the next Interest Payment Date and a sum equal to the prorata amount of principal falling due on such bonds on the next principal payment date. The Issuer will cause said fiscal agent bank to transfer from the Sinking Fund to the paying agent bank or banks for all bonds payable from said fund, at least three (3) days in advance of each Interest Payment Date, funds fully sufficient to pay promptly the principal and interest so falling due on such date.

(b) The maintenance of a Sales Tax Bond Reserve Fund (hereinafter called the "Reserve Funds"). On the date of issuance of the Bonds, the Issuer shall (i) deposit from the proceeds of the Bonds into the Reserve Fund an amount equal to the Reserve Fund Requirement or (ii) deposit to the credit of the Reserve Fund a surety bond, letter of credit or insurance policy equal to the Reserve Fund Requirement. Issuer intends to meet this requirement with respect to the Bonds by so depositing to the credit of the Reserve Fund a Reserve Fund Alternative Investment that equals the Reserve Fund Requirement. Moneys in the Reserve Fund shall be used solely for transfer to the Sinking Fund in amounts required to prevent any default in the payment of the principal of and interest on the Bonds and the Outstanding Parity Bonds, and, at the option of the Issuer, for payment of the final principal and interest requirements of the Bonds and the Outstanding Parity Bonds.

Whenever the amount in the Reserve Fund, together with the amount in the Sinking Fund, is sufficient to pay in full all Bonds and the Outstanding Parity Bonds in accordance with their terms (including principal or applicable premium and interest thereon), the funds on deposit in the Reserve Fund shall be transferred to the Sinking Fund and shall be available to pay all Bonds and the Outstanding Parity Bonds in accordance with their terms (including principal or applicable premium and interest thereon). Prior to said transfer, all investments held in the Reserve Fund shall be liquidated to the extent necessary in order to provide for the timely payment of principal and interest (or redemption premium) on the Bonds and the Outstanding Parity Bonds.

In lieu of the required transfers to the Reserve Fund or to provide for the removal of all or a portion of the amounts on deposit in the Reserve Fund, the Issuer may cause to be deposited into the Reserve Fund a surety bond or an insurance policy for the benefit of the Owners or a letter of credit in an amount equal to (i) the difference between the Reserve Fund Requirement and the sums then on deposit in the Reserve Fund, if any or (ii) the Reserve Fund Requirement. The surety bond, insurance policy or letter of credit shall, while the Bonds are Outstanding, be subject to the prior written consent of the Reserve Fund (or the Issuer, if the Reserve Fund has ceased to exist as a legal entity), and shall be payable (upon the giving of notice as required thereunder) on any due date on which moneys will be required to be withdrawn from the Reserve Fund and applied to the payment of principal of or interest on any Bonds when such withdrawal cannot be met by amounts on deposit in the Sinking Fund or the Reserve Fund or provided from any other fund or account under this Bond Ordinance.

To the extent the Reserve Fund is funded in part with a surety bond or other credit facility issued by an entity other than the Issuer and in part with the Reserve Fund Alternative Investment, then, in the event of any draw upon the Reserve Fund, the Paying Agent must make claims pro rata (in the proportion which the maximum amount available under each surety bond or other credit facility bears to the total Reserve Fund Requirement) against the Reserve Fund Alternative Investment and all other surety bonds and other credit facilities on deposit in the Reserve Fund.

In the event of the refunding of any Bonds, the Issuer may withdraw from the Reserve Fund all, or any portion of, the amounts accumulated therein with respect to the Bonds being refunded and deposit such amounts to be held for the payment of the principal or redemption premium, if applicable and interest on the Bonds being refunded; provided that such withdrawal shall not be made unless (i) immediately thereafter the Bonds being refunded shall be deemed to have been paid pursuant to Section 11.1 and (ii) the amount remaining in the Reserve Fund, after giving effect to
the issuance of the Refunding Bonds and the disposition of the proceeds thereof, shall not be less than the Reserve Fund Requirement.

In the event that Additional Parity Bonds are issued hereafter in the manner provided by this Bond Ordinance, there shall be immediately transferred from the proceeds of such Additional Parity Bonds and/or from the Combined Sales Tax Fund into the Reserve Fund such amount (as may be designated in the ordinance authorizing the issuance of such Additional Parity Bonds) as will increase the total amount on deposit in the Reserve Fund to a sum equal to the Reserve Fund Requirement for all outstanding bonds payable from the Sinking Fund and any such Additional Parity Bonds; provided, however, that in the event of the issuance of Additional Parity Bonds, the Reserve Fund Requirement may be satisfied by cash or Reserve Fund Alternative Investment, or any combination thereof (provided, however, while the Bonds are Outstanding, any such Reserve Fund Alternative Investment shall be subject to the prior written consent of the Insurer).

(c) All or any part of the moneys in the Sales Tax Fund, the Sinking Fund or the Reserve Fund shall at the written request of the Governing Authority be invested in Qualified Investments maturing in five (5) years or less, in which event all income derived from such investments shall be added to the Combined Sales Tax Fund, with the exception that any interest earnings from invested funds of the Reserve Fund shall be retained therein until an amount equal to the Reserve Fund Requirement is on deposit therein, and such investments shall, to the extent at any time necessary, be liquidated and the proceeds thereof applied to the purposes for which the Combined Sales Tax Fund has been created.

If at any time it shall be necessary to use moneys in the Reserve Fund for the purpose of paying principal or interest on bonds payable from the Sinking Fund as to which there would otherwise be default, the moneys so used shall be replaced from the Tax revenues first theretofore received and deposited into the Combined Sales Tax Fund and not hereinafter required to be used for paying the expenses of collecting the Tax or to pay current principal and interest requirements, it being the intention hereof that there shall as nearly as possible be at all times in the Reserve Fund the amount hereinabove specified.

All moneys remaining in the Combined Sales Tax Fund on the 20th day of each month in excess of all reasonable and necessary expenses of collection and administration of the Tax and after making the required payments into the Sinking Fund and the Reserve Fund for the current month and for prior months during which the required payments may not have been made (including any amounts owed a provider of a Reserve Fund Alternative Investment), shall be considered as surplus. Such surplus may be used by the Issuer for any of the purposes for which the imposition of the Tax is authorized or for the purpose of retiring bonds payable from the Tax in advance of their maturities, either by purchase of bonds then outstanding at prices not greater than the redemption prices of said bonds or by retiring such bonds at the prices and in the manner set forth in the ordinances issuing such bonds.

SECTION 4.4. Investment of Funds[tc \( \text{\textasciitilde SECTION}\) Field result goes here Investment of Funds]. All or any part of the moneys in the Combined Sales Tax Fund, the Sinking Fund and the Reserve Fund shall, at the written request of the Issuer, be invested in Qualified Investments, except for (a) Bond proceeds representing accrued interest and (b) moneys on deposit in the Reserve Fund, which shall be invested in Government Securities maturing in five (5) years or less, in which event all income derived from such Qualified Investments shall be added to the Combined Sales Tax Fund, and such investments shall, to the extent at any time necessary, be liquidated and the proceeds thereof applied to the purposes for which the Combined Sales Tax Fund is created. Income on investments in the Reserve Fund shall be added to the Combined Sales Tax Fund only to the extent that the amount then on deposit in the Reserve Fund exceeds the Reserve Fund Requirement.

SECTION 4.5. Funds to Constitute Trust Funds[tc \( \text{\textasciitilde SECTION}\) Field result goes here Funds to Constitute Trust Funds]. The Combined Sales Tax Fund, the Sinking Fund, and the Reserve Fund provided for in Section 4.2 hereof shall all be and constitute trust funds for the purposes provided in this Bond Ordinance, and the Owners are hereby granted a lien on all such funds until applied in the manner provided herein. The moneys in such funds shall at all times be secured to the full extent thereof by the bank or trust company holding such funds in the manner required by the laws of the State.

SECTION 4.6. Method of Valuation and Frequency of Valuation[tc \( \text{\textasciitilde SECTION}\) Field result goes here Method of Valuation and Frequency of Valuation]. In computing the amount in any fund provided for in Section 4.3, Qualified Investments shall be valued at the lower of the cost or the market price, exclusive of accrued interest. With respect to all funds and accounts (except the Reserve Fund), valuation shall occur annually. The Reserve Fund shall be valued semi-annually, except in the event of a withdrawal from the Reserve Fund, whereupon it shall be valued immediately after such withdrawal.

ARTICLE V

REDEMPTION OF BONDS

SECTION 5.1. Redemption of Bonds[tc \( \text{\textasciitilde SECTION}\) Field result goes here Redemption of Bonds]. The Bonds are not callable for redemption prior to their stated dates of maturity.

SECTION 5.2. Notice to Paying Agent[tc \( \text{\textasciitilde SECTION}\) Field result goes here Notice to Paying Agent]. In the case of any redemption of Bonds, the Issuer shall give written notice to the Paying Agent of the election so to redeem and the redemption date, and of the principal amounts and numbers of the Bonds or portions of Bonds of each maturity to be redeemed. Such notice shall be given at least thirty (30) days prior to the redemption date. In the event notice of redemption shall have been given as provided in Section 5.4, the Issuer shall, on or before the redemption date, deposit moneys available therefor with the Paying Agent in an amount which, in addition to other amounts, if any, available therefor held by the Paying Agent will be sufficient to redeem on the redemption date, at the redemption price thereof together with accrued interest to the redemption date, all of the Bonds to be redeemed.
SECTION 5.3. Selection of Bonds to be Redeemed by Lot[tc v:2] "SECTION Field result goes here Selection of Bonds to be Redeemed by Lot]. In the event of redemption of less than all the outstanding Bonds of like maturity, such Bonds shall be redeemed by lot or in such other manner as shall be deemed fair and equitable by the Paying Agent for random selection.

SECTION 5.4. Notice of Redemption[tc v:2] "SECTION Field result goes here Notice of Redemption]. Notice of any such redemption shall be given by the Paying Agent by mailing a copy of the redemption notice by first class mail, postage prepaid, by notice deposited in the United States mails not less than thirty (30) days prior to the redemption date addressed to the Owner of each Bond to be redeemed at his address as shown on the registration books of the Paying Agent. Failure to give such notice by mailing to any Owner, or any defect therein, shall not affect the validity of any proceedings for the redemption of other Bonds.

All notices of redemption shall state (i) the redemption date; (ii) the redemption price; (iii) if less than all the Bonds are to be redeemed, the identifying number (and in the case of partial redemption, the respective principal amounts) and CUSIP number of the Bonds to be redeemed; (iv) that on the redemption date the redemption price will become due and payable on each such Bond and interest thereon will cease to accrue thereon from and after said date; and (v) the place where such Bonds are to be surrendered for payment. Any notice mailed as provided in this Section shall be conclusively presumed to have been duly given, whether or not the Owner of such Bonds or the Insurer receives the notice.

On or before any redemption date the Paying Agent shall segregate and hold in trust funds furnished by the Issuer for the payment of the Bonds or portions thereof called, together with accrued interest thereon and premium, if any, to the redemption date. Upon the giving of notice and the deposit of funds for redemption, interest on such Bonds or portions thereof thus called shall no longer accrue on or after the date fixed for redemption. If said moneys shall not be so available on the redemption date, such Bonds shall continue to bear interest until paid at the same rate as they would have borne had they not been called for redemption. No payment shall be made by the Paying Agent upon any Bond or portion thereof called for redemption until such Bond or portion thereof shall have been delivered for payment or cancellation or the Paying Agent shall have received the items required by Section 3.2 with respect to any mutilated, lost, stolen or destroyed Bond. Upon surrender of any Bond for redemption in part only, the Paying Agent shall register and deliver to the Owner thereof a new Bond or Bonds of authorized denominations of maturity and interest rate in an aggregate principal amount equal to the unredeemed portion of the Bond surrendered.

SECTION 5.5. Payment of Redeemed Bonds[tc v:2] "SECTION Field result goes here Payment of Redeemed Bonds]. Notice having been given in the manner provided in Section 5.4, the Bonds or portions thereof so called for redemption shall become due and payable on the redemption date so designated at the redemption price, plus interest accrued and unpaid to the redemption date, and, upon presentation and surrender thereof at the office specified in such notice, such Bonds or portions thereof shall be paid at the redemption price plus interest accrued and unpaid to the redemption date. SECTION 5.6. Purchase of Bonds[tc v:2] "SECTION Field result goes here Purchase of Bonds]. The Paying Agent shall endeavor to apply any moneys furnished by the Issuer for the redemption of Bonds (but not committed to the redemption of Bonds as to which notice of redemption has been given) to the purchase of appropriate outstanding Bonds. In accordance with Section 3.4, any Bonds so purchased shall be cancelled. Subject to the above limitations, the Paying Agent, at the direction of the Issuer, shall purchase Bonds at such times, for such prices, in such amounts and in such manner (whether at advertised or private sale or by tender, or otherwise) with moneys made available by the Issuer for such purpose, provided, however, that the Paying Agent shall not expend amounts for the purchase of Bonds of a particular maturity (excluding accrued interest, but including any brokerage or other charges) in excess of the amount that would otherwise be expended for the redemption of Bonds of such maturity, plus accrued interest, and, provided further, that the Issuer may, in its discretion, direct the Paying Agent to advertise for tenders for the purchase of Bonds not less than sixty (60) days prior to any date for redemption of Bonds.

ARTICLE VI
PARTICULAR COVENANTS

SECTION 6.1. Obligation of the Issuer in Connection with the Issuance of the Bonds[tc v:2] "SECTION Field result goes here Obligation of the Issuer in Connection with the Issuance of the Bonds]. As a condition of the issuance of the Bonds, the Issuer hereby binds and obligates itself to: (a) deposit irrevocably in trust with the Escrow Agent under the terms and conditions of the Escrow Agreement, as hereinafter provided, an amount of the proceeds derived from the issuance and sale of the Bonds (exclusive of accrued interest), together with additional moneys of the Issuer, as will enable the Escrow Agent to immediately make an initial cash deposit and purchase the Defeasance Obligations described in the Escrow Agreement, which, together with the initial cash deposit deposited therein, shall mature in principal and interest in such a manner as to provide at least the required cash amount on or before each payment date for the Refunded Bonds (said amounts being necessary on each of the designated dates to pay and retire or redeem the Refunded Bonds, including premiums, if any, payable upon redemption) and (b) deposit in trust with the Escrow Agent such amount of the proceeds of the Bonds as will enable the Escrow Agent to pay the Costs of Issuance and the costs properly attributable to the establishment and administration of the Escrow Fund.

SECTION 6.2. Payment of Bonds[tc v:2] "SECTION Field result goes here Payment of Bonds]. The Issuer shall duly and punctually pay or cause to be paid as herein provided, the principal or redemption price, if any, of every Bond and the interest thereon, at the dates and places and in the manner stated in the Bonds according to the true intent and meaning thereof.

SECTION 6.3. Tax Covenant[tc v:2] "SECTION Field result goes here Tax Covenant]. (a) To the extent permitted by the laws of the State, the Issuer will comply with the requirements of the Code to establish, maintain and preserve the exclusion from "gross income" of interest on the bonds under the Code. The Issuer shall not take any action or fail to take any action, nor shall it permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly to acquire any securities or obligations the acquisition of which would cause any Bond
to be an "arbitrage bond" as defined in the Code or would result in the inclusion of the interest on any Bond in "gross income" under the Code, including, without limitation, (i) the failure to comply with the limitation on investment of the proceeds of the Bonds, (ii) the failure to pay any required rebate of arbitrage earnings to the United States of America, or (iii) the use of the proceeds of the Bonds in a manner which would cause the Bonds to be "private activity bonds" under the Code.

(b) The Issuer shall not permit at any time or times any proceeds of the Bonds or any other funds of the Issuer to be used, directly or indirectly, in a manner which would result in the exclusion of the interest on any Bond from the treatment afforded by Section 103(a) of the Code, as from time to time amended, or any successor provision thereto.

(c) The Executive Officers are hereby empowered, authorized and directed to take any and all action and to execute and deliver any instrument, document or certificate necessary to effectuate the purposes of this Section.

SECTION 6.4. Continuing Disclosure Certificate[tc |2| SECTION Field result goes here Continuing Disclosure Certificate]. The Secretary of the Governing Authority is hereby empowered and directed to execute an appropriate Continuing Disclosure Certificate (substantially in the form set forth in Appendix I of the official statement issued in connection with the sale and issuance of the Bonds) pursuant to S.E.C. Rule 15c2-12(b)(5).

SECTION 6.5. [tc |2| SECTION Field result goes here ]Bonds are not "Qualified Tax-Exempt Obligations". The Bonds are not designated as "qualified tax-exempt obligations" within the meaning of Section 265(b)(3) of the Code.

SECTION 6.6. Obligation to Collect the Tax[tc |2| SECTION Field result goes here Obligation to Collect the Tax]. The Issuer does hereby obligate itself and is bound under the terms and provisions of law to levy, impose, enforce and collect the Tax for the full period of its authorization and to provide for all reasonable and necessary rules, regulations, procedures and penalties in connection therewith, including the proper application of the proceeds of the Tax, until all of the Bonds and the Outstanding Parity Bonds have been retired as to both principal and interest. Nothing herein contained shall be construed to prevent the Issuer from altering, amending or repealing from time to time as may be necessary this Bond Ordinance or any subsequent ordinance providing with respect to the Tax, said alterations, amendments or repeals to be conditioned upon the continued preservation of the rights of the Owners with respect to the Net Revenues of the Tax. The Tax Ordinance imposing the Tax and pursuant to which the Tax is being levied, collected and allocated, and the obligations to continue to levy, collect and allocate the Tax and to apply the revenues therefrom in accordance with the provisions of this Bond Ordinance, shall be irrevocable for the full period of its authorization until the Bonds and the Outstanding Parity Bonds have been paid in full as to principal, premium, if any, and interest, and shall not be subject to amendment in any manner which would impair the rights of the Owners from time to time of the Bonds or which would in any way jeopardize the prompt payment of principal thereof and interest thereon. More specifically, neither the Legislature of Louisiana nor the Issuer may discontinue or decrease the Tax or permit to be discontinued or decreased the Tax in anticipation of the collection of which the Bonds have been issued, or in any way make any change which would diminish the amount of the Net Revenues of the Tax pledged to the payment of the Bonds and received by the Issuer, until all of such Bonds and the Outstanding Parity Bonds shall have been retired as to both principal and interest.

The Owners of any of the Bonds may, either at law or in equity, by suit, action, mandamus or other proceeding, enforce and compel performance of all duties required to be performed as a result of issuing the Bonds and may similarly enforce the provisions of any resolution or ordinance imposing the Tax and the Bond Ordinance and proceedings authorizing the issuance of the Bonds.

SECTION 6.7. Indemnity Bonds[tc |2| SECTION Field result goes here Indemnity Bonds]. So long as any of the Bonds and the Outstanding Parity Bonds are outstanding and unpaid, the Issuer shall require all of its officers and employees who may be in a position of authority or in possession of money derived from the collection of the Tax, to obtain or be covered by a blanket fidelity or faithful performance bond, or independent fidelity bonds written by a responsible indemnity company in amounts adequate to protect the Issuer from loss.

SECTION 6.8. Issuer to Maintain Books and Records[tc |2| SECTION Field result goes here Issuer to Maintain Books and Records]. So long as any of the Bonds and the Outstanding Parity Bonds are outstanding and unpaid in principal or interest, the Issuer shall maintain and keep proper books of records and accounts separate and apart from all other records and accounts in which shall be made full and correct entries of all transactions relating to the collection and expenditure of the revenues of the Tax, including specifically but without limitation, all reasonable and necessary costs and expenses of collection. Not later than six (6) months after the close of each Fiscal Year, the Issuer shall cause an audit of such books and accounts to be made by the Legislative Auditor of the State of Louisiana (or his successor) or by a recognized independent firm of certified public accountants showing the receipts of and disbursements made for the account of the aforesaid Sales Tax Funds. ORDINANCE NO. #15-5423 C.S.

An Ordinance to Amend Ordinance #14-5364 C.S.
To Provide Relative to Communication Towers

BE IT ORDAINED by the City Council of Hammond, Louisiana, that:

1. Hammond Ordinance #14-5364 is amended and the Unified Development Code is amended to certain provisions that make up Article 11.5 Communication Towers/Satellite to read as follows:

ARTICLE 11
ARTICLE 11.5 COMMUNICATION TOWERS/SATELLITE

11.5.1 In General

A. Satellite Dishes/Antennas shall be considered accessory uses of a lot and thus shall not be located in front or the required side yards in residential districts. Rear yards may be used for placement however. Antennas may be located inside of the required front and side yards in commercial and industrial districts.

B. Satellite Dishes/Antennas shall be placed no closer to the right-of-way than the building setback line allows in any zoning districts.

C. Rooftop placement of dishes shall be prohibited in all residential districts. Rooftop placement in commercial and industrial districts is permissible where height regulations are followed and where acceptable methods of anchoring are used. (See below.)

D. Definitions as relating to this Ordinance:

1) “Communications tower” as used in this Ordinance shall mean a tower, pole, or similar structure which supports a telecommunications antenna operated for commercial purposes above ground in a fixed location, freestanding, guyed, or on a building.

2) “Telecommunications,” as defined in the Federal Telecommunications Act of 1996, means the transmission, between or among points specified by the user, of information of the user’s choosing, without change in the form or content of the information as sent and received.

3) “Antenna” means a device, dish, or array used to transmit or receive, on a commercial basis, telecommunications signals.

4) “Height” of a communication tower is the distance from base of the tower to the top of the structure. The base shall be the bottom of a building or other structure if the antenna is located on a building or other structure.

11.5.2 Communications tower and antenna permitted only as conditional use.
A. A communication tower and/or antennae may be permitted upon determination that all of the applicable conditions in this Ordinance are met and that Zoning Commission conditional approval is granted.

1) **Zoning Districts in which conditional uses are not permitted:**
   - Mixed Use and Commercial MX-N, MX-C, and MX-CBD. (Not permitted)

2) **Zoning Districts in which conditional uses are permitted: height limitations:**
   - Commercial: Free standing or guyed tower with height not exceeding (C-H, C-N only) 180 feet is a conditional use; height exceeding 180 feet requires special variance.
   - Industrial: Free standing or guyed tower with height not exceeding 180 (Districts I-L & I-H) feet is conditional use; height exceeding 180 feet requires special variances.

B. Application Requirements. The applicant for a conditional use zoning permit for construction of a communications tower or placement of a commercial telecommunication antenna on an existing structure must file a building application accompanied by the normal building fee and the zoning fee of $100.00 and the following documents, if applicable:

1) One copy of typical specifications for proposed structures and antennae, including description of design characteristics and material.

2) A site plan drawn to scale showing property boundaries, tower location, tower height, guy wires and anchors, existing structures, photographs or elevation drawings depicting typical design of proposed structures, parking, fences, landscape plan, and existing land uses on adjacent property. A site plan is still required if antenna is to be mounted on an approved existing structure.

3) A current map, or update for an existing map on file, showing locations of applicant's antennae, facilities, existing towers, and proposed towers which are reflected in public records, serving any property in the City.

4) A report from a structural engineer showing the tower antenna capacity by type and number, and a certification that the tower is designed to withstand winds in accordance with ANSI/EIA/TIA 222, latest revision, standards.

5) Identification of the owners of all antennae and equipment to be located on the site.

6) Written authorization from the site owner for the application.

7) Evidence that a valid FCC license for the proposed activity has been issued.

8) Building permit and zoning application forms completed.

9) A written agreement to remove the tower and/or antenna within one year after cessation of use.

10) Additional information as required to determine that all applicable zoning regulations are met.

11.5.2 **Conditions concerning communication towers.**

A. Applicant must show that all applicable conditions are met.

1) The proposed communication tower, antenna or accessory structure will be placed in a reasonably available location which will minimize the visual impact on the surrounding area and allow the facility to function in accordance with minimum standards imposed by applicable communications regulations and applicant's
technical design requirements. Minimum lot sizes must be at least that required by the applicable zoning district in which the facility is located or 4,000 square feet where no lot size is defined.

2) Applicant must show that a proposed antenna and equipment cannot be accommodated and function as required by applicable regulations and applicant’s technical design requirements on any existing structure or tower under the control of applicant.

3) When lighting is required and is permitted by the FAA or other federal or state authority, it shall be oriented inward to as not to project onto surrounding residential property.

4) Prior to consideration of a building permit for location on private property which must be leased or acquired, applicant must show that available publicly owned sites (excluding public parks) are unavailable or unsuitable for operation of the facility under applicable communication regulations and needed technical design requirements. A tower is not allowed if suitable space can be found on an existing communication tower or existing tower site within the search area that the new site is to serve.

5) Applicant must show that a new tower is designed to accommodate additional antennae equal in number to applicant’s present and future requirements.

6) Applicant must show that all applicable health, nuisance, noise, fire, building and safety code requirements are met.

7) A communications tower or antenna must be properly marked with top lighting in relation to FCC and/or FAA safety requirements.

8) A permit for a proposed tower site or structure in the City limits shall not be issued unless the applicant certifies that an existing site does not meet applicant’s structural specifications and applicant’s technical design requirements, or that collocation agreement could not be obtained.

9) In no cases will barbed wire or razor wire be permitted as fencing material at site. Other types of fencing shall be allowed in accordance with this Ordinance. The cellular transmission tower shall be constructed of a material with a neutral color and shall be designed to blend in with the surrounding landscape and uses.

10) Land development regulations, visibility, fencing, screening, landscaping, parking, access, lot size, exterior illumination, sign, storage, and all other general building and zoning regulations except height shall apply to the use. Setback and height conditions in this section apply.

11) A tower must be a minimum distance equal to one-half the height of the tower from property designated historic by the City. It must be set back from all lot lines distances equal to the district setback requirements or 25% of the tower height, whichever is greater.

12) The distance between the base of the commercial transmission towers, radio towers, masts, aerials, and/or antennae, and any residential zoning district or residential structure shall not be less than the height of the structure from the top of the antenna to grade. The distance between the building upon which the commercial rooftop transmission or radio tower is located and any residential zoning district shall not be less than the total height of the building plus the height of the rooftop transmission or radio tower.

11.5.4 Abandonment of communication towers.

In the event the use of any communication or transmission tower has been discontinued for a period of one year or more, the tower shall be deemed to be abandoned. Determination of the date of abandonment shall be made by the Building Official and the Tax Collection Official of the City.
who shall have the right to request documentation and/or affidavits from the communication tower owner/operator regarding the issue of tower usage. Upon such abandonment, the owner/operator of the tower shall have 60 additional days within which to (1) reactivate the use of the tower or transfer the tower to another owner/operator who makes actual use of the tower, or (2) dismantle and remove the tower and related structures.

11.5.5 Amateur Radio Facilities (HAM operators)

This part of this ordinance in no way regulates or abridges the rights of amateur radio operators to continue their operations or to engage in future, lawful operations in accordance with all applicable FCC, federal, state, and/or local regulations. This Ordinance does not restrict such operators from locating their facilities, up to 65 feet in height, in residential areas of the City as accessory uses in accordance with present City Zoning restrictions. However, building permit applications and site plans must still be submitted to the City and a building permit obtained, before construction or erection of any antenna or antenna support structure related to amateur radio stations.

2. All Ordinances in conflict therewith are repealed.

BE IT ORDAINED by the City Council of Hammond, Louisiana, that:

CITY OF HAMMOND
ORDINANCE NO. #15-5424 C. S.

An Ordinance Prohibiting Smoking in Workplaces and Public Places in the City of Hammond and Providing for Related Matters

WHEREAS, in order to preserve and improve the health, comfort, and environment of the people of this City it is necessary to limit exposure to tobacco smoke and use of tobacco products; and

WHEREAS, it is in the best interests of the people of this City to protect nonsmokers from involuntary exposure to secondhand smoke in areas open to the public and places of employment; and

WHEREAS, to protect the right of nonsmokers to breathe smokefree air, and to recognize that the need to breathe smokefree air shall have priority over the desire to smoke; and

WHEREAS, The City of Hammond does hereby find that:

The 2006 U.S. Surgeon General's Report, *The Health Consequences of Involuntary Exposure to Tobacco Smoke*, has concluded that (1) secondhand smoke exposure causes disease and premature death in children and adults who do not smoke; (2) children exposed to secondhand smoke are at an increased risk for sudden infant death syndrome (SIDS), acute respiratory problems, ear infections, and asthma attacks, and that smoking by parents causes respiratory symptoms and slows lung growth in their children; (3) exposure of adults to secondhand smoke has immediate adverse effects on the cardiovascular system and causes coronary heart disease and lung cancer; (4) there is no risk-free level of exposure to secondhand smoke; (5) establishing smokefree workplaces is the only effective way to ensure that secondhand smoke exposure does not occur in the workplace, because ventilation and other air cleaning technologies cannot completely control for exposure of nonsmokers to secondhand smoke; and evidence from peer-reviewed studies shows that smokefree policies and laws do not have an adverse economic impact on the hospitality industry. According to the 2010 U.S. Surgeon General's Report, *How Tobacco Smoke Causes Disease*, even occasional exposure to secondhand smoke is harmful and low levels of exposure to secondhand tobacco smoke lead to a rapid and sharp increase in dysfunction and inflammation of the lining of the blood vessels, which are implicated in heart attacks and stroke. According to the 2014 U.S. Surgeon General's Report, *The Health Consequences of Smoking—50 Years of Progress*, secondhand smoke exposure causes stroke in nonsmokers. The report also found that since the 1964 Surgeon General’s Report on Smoking and Health, 2.5 million nonsmokers have died from diseases caused by tobacco smoke.

Numerous studies have found that tobacco smoke is a major contributor to indoor air pollution, and that breathing secondhand smoke (also known as environmental tobacco smoke) is a cause of disease in healthy nonsmokers, including heart disease, stroke, respiratory disease, and lung cancer. The National Cancer Institute determined in 1999 that secondhand smoke is responsible for the early deaths of approximately 53,000 Americans annually. The Public Health Service’s National Toxicology Program (NTP) has listed secondhand smoke as a known carcinogen.

Based on a finding by the California Environmental Protection Agency in 2005, the California Air Resources Board has determined that secondhand smoke is a toxic air contaminant, finding that exposure to secondhand smoke has serious health effects, including low birth-weight babies; sudden infant death syndrome (SIDS); increased respiratory infections in children; asthma in children and adults; lung
cancer, sinus cancer, and breast cancer in younger, premenopausal women; heart disease; and death.

There is indisputable evidence that implementing 100% smoke-free environments is the only effective way to protect the population from the harmful effects of exposure to secondhand smoke.

In reviewing 11 studies concluding that communities see an immediate reduction in heart attack admissions after the implementation of comprehensive smokefree laws, the Institute of Medicine of the National Academies concluded that data consistently demonstrate that secondhand smoke exposure increases the risk of coronary heart disease and heart attacks and that smokefree laws reduce heart attacks.

A significant amount of secondhand smoke exposure occurs in the workplace. Employees who work in smoke-filled businesses suffer a 25-50% higher risk of heart attack and higher rates of death from cardiovascular disease and cancer, as well as increased acute respiratory disease and measurable decrease in lung function.

Studies measuring cotinine (metabolized nicotine) and NNAL (metabolized nitrosamine NNK, a tobacco-specific carcinogen linked to lung cancer) in hospitality workers find dramatic reductions in the levels of these biomarkers after a smokefree law takes effect. Average cotinine levels of New York City restaurant and bar workers decreased by 85% after the city's smokefree law went into effect. After the implementation of Ontario, Canada's Smokefree Indoor Air Law, levels of NNAL were reduced by 52% in nonsmoking casino employees and cotinine levels fell by 98%.

Smokefree indoor laws result in a significant reduction in fine particulate matter and improved air quality. A Grand Rapids, Michigan study that monitored six restaurants before and after implementation of the state's smokefree air law found that PM2.5 fine particulate matter was reduced by 92 percent after the law went into effect, indicating that the vast majority of indoor air pollution in all six venues was due to secondhand smoke. The results in Grand Rapids were consistent with results in Wilmington, Delaware; Boston, Massachusetts; and Western New York.

Following a Health Hazard Evaluation of Las Vegas casino employees' secondhand smoke exposure in the workplace, which included indoor air quality tests and biomarker assessments, the National Institute of Occupational Safety & Health (NIOSH) concluded that the casino employees are exposed to dangerous levels of secondhand smoke at work and that their bodies absorb high levels of tobacco-specific chemicals NNK and cotinine during work shifts. NIOSH also concluded that the "best means of eliminating workplace exposure to [secondhand smoke] is to ban all smoking in the casinos." A subsequent study in Nevada, whose Clean Indoor Air Act permits smoking in designated areas of casinos, bars, and taverns, indicates that strong 100% smoke free laws are the only effective way to protect indoor air quality. The study sampled the air quality in 15 casino gaming areas and corresponding nonsmoking areas, and the results indicated that the Clean Indoor Air Act failed to protect air quality in the nonsmoking areas, including children-friendly areas.

Secondhand smoke is particularly hazardous to elderly people, individuals with cardiovascular disease, and individuals with impaired respiratory function, including asthmatics and those with obstructive airway disease. The Americans With Disabilities Act, which requires that disabled persons have access to public places and workplaces, deems impaired respiratory function to be a disability.

The U.S. Centers for Disease Control and Prevention has determined that the risk of acute myocardial infarction and coronary heart disease associated with exposure to tobacco smoke is non-linear at low doses, increasing rapidly with relatively small doses such as those received from secondhand smoke or actively smoking one or two cigarettes a day, and has warned that all patients at increased risk of coronary heart disease or with known coronary artery disease should avoid all indoor environments that permit smoking.
Given the fact that there is no safe level of exposure to secondhand smoke, the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE) bases its ventilation standards on totally smoke free environments. ASHRAE has determined that there is currently no air filtration or other ventilation technology that can completely eliminate all the carcinogenic components in secondhand smoke and the health risks caused by secondhand smoke exposure, and recommends that indoor environments be smoke free in their entirety.

During periods of active smoking, peak and average outdoor tobacco smoke (OTS) levels measured in outdoor cafes and restaurant and bar patios near smokers rival indoor tobacco smoke concentrations. Nonsmokers who spend six-hour periods in outdoor smoking sections of bars and restaurants experience a significant increase in levels of cotinine when compared to the cotinine levels in a smoke free outdoor area.

Residual tobacco contamination, or “third hand smoke,” from cigarettes, cigars, and other tobacco products is left behind after smoking occurs and builds up on surfaces and furnishings. This residue can linger in spaces long after smoking has ceased and continue to expose people to tobacco toxins. Sticky, highly toxic particulate matter, including nicotine, can cling to walls and ceilings. Gases can be absorbed into carpets, draperies, and other upholsteries, and then be reemitted (off-gassed) back into the air and recombine to form harmful compounds. Tobacco residue is noticeably present in dust throughout places where smoking has occurred. Given the rapid sorption and persistence of high levels of residual nicotine from tobacco smoke on indoor surfaces, including clothing and human skin, this recently identified process represents an unappreciated health hazard through dermal exposure, dust inhalation, and ingestion. The dangers of residual tobacco contamination are present in hotels, even in nonsmoking rooms. Compared with hotels that are completely smoke free, surface nicotine and air 3EP are elevated in nonsmoking and smoking rooms of hotels that allow smoking. Air nicotine levels in smoking rooms are significantly higher than those in nonsmoking rooms of hotels that do and do not completely prohibit smoking. Hallway surfaces outside of smoking rooms also show higher levels of nicotine than those outside of nonsmoking rooms. Partial smoking restrictions in hotels do not protect nonsmoking guests from exposure to tobacco smoke and tobacco-specific carcinogens.

Unregulated high-tech smoking devices, commonly referred to as electronic cigarettes, or “e-cigarettes,” closely resemble and purposefully mimic the act of smoking by having users inhale vaporized liquid nicotine created by heat through an electronic ignition system. After testing a number of electronic cigarettes from two leading manufacturers, the Food and Drug Administration (FDA) determined that various samples tested contained not only nicotine but also detectable levels of known carcinogens and toxic chemicals, including tobacco-specific nitrosamines and diethylene glycol, a toxic chemical used in antifreeze. The FDA’s testing also suggested that “quality control processes used to manufacture these products are inconsistent or non-existent.” According to a more recent study, electronic cigarette emissions are made up of a high concentration of ultrafine particles, and the particle concentration is higher than in conventional tobacco cigarette smoke. Electronic cigarettes produce an aerosol or vapor of undetermined and potentially harmful substances, which may appear similar to the smoke emitted by traditional tobacco products. Their use in workplaces and public places where smoking of traditional tobacco products is prohibited creates concern and confusion and leads to difficulties in enforcing the smoking prohibitions. The World Health Organization (WHO) recommends that electronic smoking devices not be used indoors, especially in smokefree environments, in order to minimize the risk to bystanders of breathing in the aerosol emitted by the devices and to avoid undermining the enforcement of smokefree laws.

The Society of Actuaries has determined that secondhand smoke costs the U.S. economy roughly $10 billion a year: $5 billion in estimated medical costs associated with secondhand smoke exposure and $4.6 billion in lost productivity.

Numerous economic analyses examining restaurant and hotel receipts and controlling for economic variables have shown either no difference or a positive
economic impact after enactment of laws requiring workplaces to be smokefree. Creation of smokefree workplaces is sound economic policy and provides the maximum level of employee health and safety.

There is no legal or constitutional “right to smoke.” Business owners have no legal or constitutional right to expose their employees and customers to the toxic chemicals in secondhand smoke. On the contrary, employers have a common law duty to provide their workers with a workplace that is not unreasonably dangerous.

Smoking is a potential cause of fires; cigarette and cigar burns and ash stains on merchandise and fixtures causes economic damage to businesses.

The smoking of tobacco, hookahs, or marijuana and the use of electronic cigarettes are forms of air pollution and constitute both a danger to health and a material public nuisance.

Accordingly, the Hammond City Council finds and declares that the purposes of this ordinance are (1) to protect the public health and welfare by prohibiting smoking in public places and places of employment; and (2) to protect the right of nonsmokers to breathe smokefree air, and to recognize that the need to breathe smokefree air shall have priority over the desire to smoke.

THEREFORE, BE IT ORDAINED by the City Council of Hammond, Louisiana that it adopts the Smokefree Air Ordinance of 2015 as follows:

1. The Code of Ordinances Chapter 17 Article I be amended by deleting current section 17-3 and 17-4 and adopting new Article III. SMOKEFREE AIR ORDINANCE, sections 17-30 through 17-47 to read as follows:

(2) Persons found liable under the provisions of this Subsection shall be assessed the following civil penalties and costs:

(A) For a first violation, such person shall either be fined seventy-five dollars or given the option to perform eight hours of community service in a litter abatement work program in lieu of the assessed seventy-five dollar fine.

If such litter was possessed by a specific person immediately before the act of disposing, there shall be an inference that the possessor committed the act of disposing.

(2) When litter disposed in violation of this Section is discovered to contain any article or articles, including but not limited to letters, bills, publications, or other writings, which display the name of a person or in any other manner indicate that the article belongs or belonged to such person, there shall be an inference that such person has violated this Section.

(e) The person shall be cited for the offense by means of a citation, summons, or other means provided by law.

(f) A person may be found guilty or held liable and fined under this Section although the commission of the offense did not occur in the presence of a law enforcement officer if the evidence presented to the court establishes that the defendant has committed the offense.

(g) For the purposes of this Section, each occurrence shall constitute a separate violation.

To qualify for the exemption provided for in this Subsection, the commercial vehicle shall be covered at all times, except during loading and unloading, in a manner that prevents rain from reaching the waste, prevents waste from falling or blowing from the vehicle, and ensures that leachate from the waste is not discharged from the vehicle during transportation.

SECTION 16-36 – Gross Littering Prohibited; Criminal Penalties; Indemnification

(a) No person shall intentionally dispose or permit the disposal of any household or office furniture or appliances, automotive parts, including but not limited to tires and engines, trailers, boats and boating accessories, tools and equipment, building materials, roofing nails, and bags or boxes of household or office garbage or refuse upon any public place in the state, upon private property in this state not owned by him, upon property located in rural areas in this state not owned by him, or in or on the waters of this state, whether from a vehicle or otherwise, including but not limited to any public highway, public right-of-way, public park, beach, campground, forest land, recreational area, trailer park, highway, road, street, or alley, except when such property is designated by the state or by any of its agencies or political subdivisions for the disposal of such items and such person is authorized to use such property for such purpose.

(b)(1) If the litter listed in Subsection A is disposed of from a motor vehicle, boat, or conveyance, except a bus or large passenger vehicle or a school bus, all as defined by R.S. 32:1, there shall be an inference that the driver of the conveyance disposed of the litter. If such litter was possessed by a specific person immediately before the act of disposing, there shall be an inference that the possessor committed the act of disposing.

(2) When litter disposed in violation of this Section is discovered to contain any article or articles, including but not limited to letters, bills, publications, or other writings, which display the name
of a person or in any other manner indicate that the article belongs or belonged to such person, there shall be an inference that such person has violated this Section.

(c) The person shall be cited for the offense by means of a citation, summons, or other means provided by law.

(d)(1) Whoever violates the provisions of this Section shall, upon first conviction, be fined not less than five hundred dollars nor more than one thousand dollars and sentenced to serve eight hours of community service in a litter abatement work program as approved by the court.

(2) Upon second conviction, an offender shall be fined not less than one thousand dollars nor more than two thousand five hundred dollars and sentenced to serve twenty-four hours of community service in a litter abatement work program as approved by the court.

(3) Upon third or subsequent conviction, an offender shall be fined not less than one thousand five hundred dollars nor more than five thousand dollars, have his motor vehicle driver's license suspended for one year, be imprisoned for not more than thirty days, or sentenced to serve not less than forty-eight and not more than one hundred hours in a litter abatement work program as approved by the court, or all or any combination of the aforementioned penalties.

(4) The judge may require an individual convicted of a violation of this Section to remove litter from state highways, public rights-of-way, public playgrounds, public parks, or other appropriate locations for any prescribed period of time in lieu of the penalties prescribed in this Section.

(e) A person may be found guilty and fined under this Section although the commission of the offense did not occur in the presence of a law enforcement officer if the evidence presented to the court establishes that the defendant has committed the offense.

(f) For the purposes of this Section, each occurrence shall constitute a separate violation.

(g) In addition to penalties otherwise provided, a person convicted under this Section shall:

(1) Repair or restore property damaged by or pay damages for any damage arising out of the violation of this Section.

(2) Pay all reasonable investigative expenses and costs to the investigative agency or agencies.

Sec. 1-8. - General penalty.

It shall be unlawful for any person to violate or fail to comply with any provision of this Code or commit any act declared to be unlawful or a misdemeanor, and where no specific penalty is provided therefor, the violation of any provision of this Code shall be punished by a fine not exceeding one thousand dollars ($1000.00) or imprisonment for a term not exceeding two (2) years, or by both such fine and imprisonment, within the discretion of the court.

The Judge retains the discretion to sentence any person who violates any provision of this Code or commit any act declared to be unlawful or a misdemeanor, to any other sentence or other terms and conditions deemed appropriate, regardless of whether a specific penalty has been provided herein.

Each day any violation of any provision of this Code shall continue constitutes a separate offense.

ORDINANCE NO. 15-5427 C.S.

An Ordinance to Amend Ordinance #08-5096 C.S.

Relative to industrial users' discharges to City’s wastewater treatment facility

BE IT ORDAINED by the City Council of Hammond, Louisiana, that:

1. Hammond ordinance #06-5096 C.S. is amended to change concentrations of BOD and COD discharges, and the following section is amended to read as follows (amended text bold underlined):

A. See 1. DEFINITIONS.

SIGNIFICANT INDUSTRIAL USER (SIU). Any industrial user who is connected to the city's domestic wastewater collection system and meets at least one of the following criteria:

(1) Discharges 50,000 gallons per day or more of wastewater,
(2) Discharges BOD at concentrations greater than 240 mg/L, and/or total suspended solids at concentrations greater than 90 mg/L and/or COD at a concentration greater than 400 mg/L,
(3) Is an industrial category regulated by National Pretreatment Standards (Categorical Pretreatment Standards) as promulgated by the United States Environmental Protection Agency.
(4) Is deemed by the Control Authority to be a significant discharge source that alone or combined with other sources may cause pass through, interference, sludge contamination, or biological toxicity in the wastewater treatment plant, or may cause the wastewater treatment plant to violate its National Pollutant Discharge Elimination system permit.

(a) Continue the disconnection until that time as the industrial user provides additional pretreatment or other facilities designed to remove the objectionable characteristics from his industrial wastes.

WASTEWATER SERVICE SURCHARGE. The charge assessed on a user of the public sewer system whose wastes exceed in strength the concentration values established as representative of normal wastewater. The surcharge assessment is added to the monthly water and sewer service charges and is calculated by doubling of the water service charge for the month in which the violation occurs.

WATER SERVICE CHARGE. The charge assessed on all users of the public potable (drinking) water system.

B. Eliminate current Sec. 32-85. (b) (1) and replace with the following:

(b)(1) During any consecutive 5-day-sampling period that a SIU discharge to the city’s wastewater treatment system has an average COD concentration in excess of 400 mg/L (BOD equivalent = 240 mg/L) - as determined by analysis of no less than three (3) daily 24-hour composite samples collected at the control manhole - the SIU may be assessed a Wastewater Service Surcharge. The Wastewater Service Surcharge shall be calculated by the following formula and
shall be added to the usual monthly water and sewer service charges paid by the SIU:

\[ WSS (Wastewater Service Surcharge) = \frac{2A \times R}{1000} \]

Where

\[ WSS = \text{Wastewater service surcharge based on excessive concentrations of regulated pollutants and assessed as an additional cost to the monthly water and sewer service charges. Multiple violations during a month may result in multiple wastewater service surcharges being assessed the SIU.} \]

\[ A = \text{Number of gallons of water utilized by SIU during the month; and} \]

\[ R = \text{Cost (in dollars) per 1000 gallons of water (based on city's current rate schedule for SIU).} \]

2. All Ordinances or parts hereof in conflict therewith are repealed.

3. This ordinance shall be effective as of the date of signature by the Mayor.

The above and foregoing ordinance having been duly submitted to the Hammond City Council in writing; introduced at a public meeting on May 19, 2015 of the Hammond City Council and discussed at a public meeting held on June 02, 2015; after motion and second was submitted to the official vote of the Hammond City Council.

ORDINANCE NO. 15-5430 C.S.

An Ordinance Providing For Cross Connection Control and
Water Backflow Prevention

BE IT ORDAINED by the City Council of Hammond, Louisiana in legal session convened, that:

1. Chapter 32 of the Code of Ordinances for the City of Hammond, Louisiana is amended to add ARTICLE IV Sections 141-145 as follows:

ARTICLE IV

...

Sec. 141. Cross-connection control device or method required.

Each existing or new structure is required to implement and maintain an adequate cross-connection control device or method for backflow prevention as mandated under state law and state regulations.

Sec. 142. Cross Connections

A. There shall be no physical connection between a public water supply and any other water supply which is not of equal sanitary quality and under an equal degree of official supervision; and there shall be no connection or arrangement by which unsafe water may center a public water supply system. The approval of the City of Hammond Public Works Department shall be obtained prior to making interconnections between potable water supplies.

B. Once delivered to a customer, that is, once water passes through a service connection, it is the customer's responsibility to ensure no water is returned to the public water supply.

C. Water from any potable water supply complying with these requirements may be supplied to any other system containing water of questionable quality only by means of an independent line discharging not less than a distance equal to two times the pipe diameter or 2 inches, whichever is greater, above the overflow level of storage units open to atmospheric pressure or by other methods approved by the state health officer.

Sec. 143 Protection of Water Supply/Containment Practices

A. Each water supplier shall protect the water produced and distributed by its water supply system from potential contamination by ensuring commercial, industrial, governmental, and/or multi-family housing served by a master meter, and/or high risk residential customers comply with the containment practices and maintenance/field testing requirements prescribed in LAC 51:XIV.609. For as otherwise directed by the state health officer. High risk residential customers shall include, but not be limited to, those operating fire suppression systems or irrigation systems equipped with pumps, injectors, pressurized tanks or vessels, or other facilities for injecting into the irrigation system agricultural chemicals such as fungicides, pesticides, soil conditioning or other similar noxious, toxic or objectionable substances. In implementing any ordinances, rules, contracts, polices, or other steps to achieve such compliance, water suppliers shall have the authority to prohibit or discontinue water service to customers who fail to install, maintain, field test, or report the results of the field test for containment assemblies or methods in accordance with LAC 51:XIV.609.F.9.

B. Commercial, industrial, and governmental customers are required to install and maintain, at a minimum, reduced pressure principal backflow prevention devices as a condition of receiving water service. Commercial, Industrial, and governmental customers may receive water service after installing and maintaining a lesser protective backflow prevention device or devices,
or no device at all, if, and only if, a certificated Backflow Prevention Surveyor working for the customer certifies, in writing, to the water supplier that there is no contamination threat to the public water supply or that the threat is such that lesser protection is fully protective of the public water supply. Such certifications shall be valid until the plumbing installations downstream of the service connection are altered; control or use of the customer's facility changes; or for a period of three years from the date of certification.

C. The state health officer has determined that Protection of Water Supply/Containment Practices are necessary to protect public health and, therefore, are not subject to the "Grandfather" provisions of § 107 of this part. Customers required to install, maintain, and test backflow prevention devices shall do so remedially if they have not already done so. Note: According to the State Fire Marshall, the addition of a backflow prevention device to a fire protection system changes the system's capacity and must be accounted for.

D. Residential customers with lawn irrigation/sprinkler systems for which pressure vacuum breakers provide adequate protection of the public water supply are exempt from annual testing requirements provided, however, the pressure vacuum breaker must be properly installed and tested upon installation; and tested after any repairs are made. Installation and testing must be performed by an individual qualified to install and inspect pressure vacuum breakers or lawn irrigation backflow prevention devices in accordance with LAC 51:XIV.609.F.8. Results of required tests must be provided timely to the water supplier. A failure to install, test, or maintain a pressure vacuum breaker in accordance with the foregoing shall be grounds for interruption of water service.

Sec. 144. Connection with Unsafe Water Sources Forbidden

A. There shall be no cross-connection, auxiliary intake, bypass, inter-connection or other arrangement, including overhead leakage, whereby water from a source that does not comply with these regulations may be discharged or drawn into any potable water supply which does comply with these requirements. The use of valves, including check or back pressure valves, is not considered protection against return flow, or back-siphonage, or for the prevention of flow of water from an unapproved source into an approved system.

B. Public water supply connections to any customer whose connected plumbing includes auxiliary water supplies, such as wells, submerged inlets, ponds, reservoirs, swimming pools and other sources of stagnant, polluted, or contaminated waters shall be made only through an "air gap" consisting of a physical separation between the free flowing discharge end of a potable water supply pipeline and an open, non-pressure, receiving vessel. Such an air gap shall be at least double the diameter of the supply pipe measured above the overflow rim of the vessel and in no case less than 1".

C. Water loading stations

a. For purposes of this part, there are two classes of water loading stations: potable and non-potable.

b. All loading stations shall be isolated from the public supply using, at a minimum, a double check backflow prevention assembly at the customer connection. Unless specific written permission is granted by the Office of Public Health to fill potable water vessels at a potable water loading station other than over the rim, all vessels being filled at a water loading station shall be filled over the rim.

c. Potable water loading stations shall be assembled using materials suitable for the delivery of potable water, which materials have been sanitized and which materials are, at all times, maintained in a sanitary fashion. Prior to delivering water through a potable water loading station, bacteriological samples taken at the discharge end of the loading station shall be analyzed in accordance with the total coliform rule to ensure the water is fit for human consumption. Any water delivered nor to certification the water is fit for human consumption shall be subject to a mandatory boil water advisory. All vessels used to deliver potable water shall be certified for delivery of potable water and shall be maintained in a sanitary manner. Furthermore, water in bulk vessels shall be tested for disinfectant residual immediately prior to delivering water and hourly while deliveries continue. At a minimum, the disinfectant residual at time of delivery shall be 0.5
mg/l or the water delivered shall be delivered under a boil water advisory. Bacteriological testing of water delivered using potable water vessels shall be at the discretion of the State Health Officer.

DIVISION 2. WATER BACKFLOW PREVENTION

Sec. 145-1 Definitions.

Approved backflow prevention assembly for containment in fire protection system means a backflow prevention assembly listed in Table 606 of the LSPC, 2000 Edition to be used in a fire protection system which also meets the requirements of Factory Mutual Research Corporation (FM) and Underwriters Laboratory (UL) and the requirement of the standard codes adopted by the City of Hammond. Devices sized smaller than 22 inches which have not been listed by Underwriters Laboratory (UL) and tested by Factory Mutual Research Corporation (FM) may be allowed if approved by the state fire marshal, and such device is listed in Table 606 of the LSPC, 2000 Edition. Any such device under this definition shall minimally meet the definition of an approved backflow prevention assembly for containment. Water purveyor means the City of Hammond Public Works Department.

Water service. Depending on the context, water service means the physical connection between a public water system and a customer's building, property, or private water system, or the act of providing potable water to a customer.

Water supply system means the water supply system of a building or premises consisting of the building supply pipe, the water distributing pipes and the necessary connecting pipes, fittings, control valves, and all appurtenances carrying or supplying potable water in or adjacent to the building or premises.

(a) The water purveyor shall have the right to enter, with the consent of the customer, or upon the basis of a suitable warrant issued by a court of appropriate jurisdiction, any property to inspect for cross-connections.

(b) The State of Louisiana will approve training programs for backflow prevention assembly technicians and register backflow prevention assembly technicians who successfully complete a training program approved by the State Plumbing Board of Louisiana as per R.S. 37:1367(G) and LAC 46:LV.310, all of which applies to licensed plumbers.

In addition, the state health officer, through the LSPC, 2000 Edition, does accept certain persons as general testers per Section D108.1.1 thereof. Such individuals are known and defined herein as backflow prevention assembly general testers. The limitations of jurisdiction/authority of backflow prevention assembly general testers are described within said definition.

(c) The administrative authority shall collect a fee of $25.00 for each inspection done by the water purveyor. The inspection will only be for the water purveyor to make sure that the air gap or backflow prevention device is in place and is the proper cross-connection control device or method used in accord with Table D104 and Section D106.

(d) The administrative authority and the water purveyor shall maintain records of cross-connection hazard surveys, and the installation, testing, and repair of all backflow prevention assemblies installed for containment purposes.
(e) Notwithstanding anything herein to the contrary, the administrative authority and water purveyor are authorized to take additional actions which may not be specifically covered herein that are deemed necessary to protect the City of Hammond’s water supply from potential or actual cross connections in accord with the requirements of the Louisiana State Plumbing Code, 2000 Edition.

Sec. 145-3. - Water services.

A. New water services.

(1) Plans shall be submitted to the water purveyor for review on all new water services in order to determine the degree of hazard.

(2) The water purveyor shall approve the type of backflow prevention assembly or method required for containment based on the requirement of Table D104 and degree of hazard. If a cross-connection is not listed in Table D104, the water purveyor shall use Table B1 of the Manual for the Selection, Installation, Maintenance, and Field Testing of Backflow Prevention Devices (CAN/CSA Standard B64.10-1994) as a guide to determine the type of device to require. (This document is referred to in Table 606 of the LSPC, 2000 Edition.)

(3) The water purveyor shall require the installation of the appropriate backflow prevention assembly or method for containment before the initiation of water service.

B. Existing water service.

(1) Any changes of, or additions to, existing water services shall be treated as new water services for the purpose of this division.

(2) Within six months after adoption of this division, the administrative authority shall publish and make available to each customer a copy of the standards used to determine the degree of hazard.

(3) Each customer shall survey the activities and processes which receives water service and shall report to the water purveyor if cross-connections exist and the degree of hazard. Upon a finding of hazard, the customer shall cause the appropriate backflow prevention assembly or method to be installed in a timely fashion.

(4) For existing water services, the water purveyor may inspect the premises to determine the degree of hazard. When high hazard cross-connections are found the water purveyor shall:

a. Develop a schedule of compliance which the customer shall follow; or

b. Terminate the water service until a backflow prevention assembly or method for containment required by the water purveyor has been installed.

(5) Failure of the water purveyor to notify a customer that the customer has a high hazard cross-connection and should install backflow prevention assemblies or methods for containment in no way relieves the customer of the responsibility to comply with all requirements of this section.

A. The customer shall be responsible for ensuring that no cross-connections exist without approved backflow protection within the customer's premises starting at the point of service from the public potable water system.

B. The customer shall, at the customer's own expense, cause installation, operation, testing and maintenance of the backflow prevention assemblies required by the administrative authority. The customer shall advise the water purveyor in advance of when a device is to be tested to allow the water purveyor the opportunity to witness the test.
C. Within 15 days after testing and/or repairs are completed, the customer shall provide the administrative authority with copies of records of the installation and of all tests and repairs made to the backflow prevention assembly on a form provided by the administrative authority.

D. In the event of a backflow incident, the customer shall immediately notify the water purveyor of the incident and take steps to confine the contamination or pollution. Water service will not be restored until corrective action is taken and approved after inspection by the water purveyor.

E. In accordance with Section D108.3.4 of the LSPC, 2000 Edition, the customer shall maintain records of installations, tests, repairs, overhauls, or replacements of backflow prevention devices or methods for at least five years and, upon request, such records shall be made available to the administrative authority.

Sec. 145-5. - Requirements.

A. Water purveyor requirements:

(1) For premises existing prior to the start of this program, the water purveyor will perform evaluations and inspections of plans and/or premises and inform the customer by letter of any corrective action deemed necessary, the method of achieving the correction, and the time allowed for the correction to be made. Ordinarily, 90 days will be allowed, however, this time period may be shortened depending upon the degree of hazard involved and the history of the device(s) in question.

(2) The water purveyor will not allow any cross-connection to remain unless it is protected by an approved backflow preventer or an air gap for which a permit has been issued and which will be regularly tested to insure satisfactory operation.

(3) The water purveyor shall notify the customer by letter of any failure to comply at the time of the first reinspection or immediately following the first reinspection. The water purveyor will allow an additional 15 days for the correction. In the event the customer fails to comply with the necessary correction by the time of the second reinspection, the water purveyor will notify the customer by letter that the water service to the customer’s premises will be terminated within five days from the customer’s receipt of such letter, in the event that the customer informs the water purveyor of extenuating circumstances as to why the correction has not been made, a time extension may be granted by the water purveyor but in no case will exceed an additional 30 days.

(4) Notwithstanding anything to the contrary, if the water purveyor determines at any time that a serious threat to the public health exists, the water service will be terminated immediately.

(5) The water purveyor shall have on file a list of private contractors who are certified backflow device testers and/or repairers. All charges for these tests, repairs, etc., will be paid by the customer of the building or property.

(6) The water purveyor will begin initial premise inspections to determine the nature of existing or potential hazards, following the approval of this program by the city council and mayor, during the calendar year. Initial focus will be on high hazard industries and commercial premises.

B. Customer requirements.

(1) The customer shall be responsible for the elimination or protection of all cross-connections on his premises.

(2) The customer, after having been informed by a letter from the water purveyor, shall at his expense, install, maintain, and test or have tested, any and all required backflow prevention devices or methods on his premises.

(3) The customer shall correct any malfunction of the backflow prevention device
or method which is revealed by periodic testing.

(4) The customer shall inform the water purveyor of any proposed or modified cross-connection and also any existing cross-connection of which the customer is aware but has not been found by the water purveyor.

(5) The customer shall not install a bypass around any backflow prevention device or method unless there is a backflow prevention device or method of the same type on the bypass. Customers who cannot shut down operation for testing of the device(s) or method(s) must supply additional devices or methods necessary to allow testing to take place.

(6) The customer shall install backflow prevention devices or methods in a manner approved by the water purveyor and in conformance with the installation requirements of Section 606 of the I.SPC, 2000 Edition. In addition, devices having a pressure port or discharge shall be installed such that the port or discharge point is located at least 24 inches above the highest flood level which may have occurred in the previous ten-year period.

(7) The customer shall install only backflow prevention devices or methods approved by the water purveyor.

(8) Any customer having a private well, auxiliary water supply or other private water source must have a permit if the well, auxiliary water supply or source is cross-connected to the water purveyor's system. Permission to cross-connect may be denied by the water purveyor. The customer may be required to install a backflow prevention device or method at the service entrance if a private water source is maintained, even if it is not cross-connected to the water purveyor's system.

(9) In the event the customer installs plumbing to provide potable water for domestic purposes which is on the water purveyor's side of the backflow prevention device or method, such plumbing must have its own backflow preventer installed.

(10) The customer shall be responsible for the payment of a $50.00 annual permit fee, annual or semi-annual device or method testing, re-testing in the case that the device or method fails to operate correctly, and second reinspections for noncompliance with the water purveyor's requirements. A reinspection fee of $200.00 per device shall be charged each time a facility fails an inspection.

Sec. 145--6. Required backflow prevention assemblies or methods for containment.

A. Water service assemblies: An air gap or an approved reduced pressure principle backflow prevention assembly is required for water services having one or more potential cross-connections which the administrative authority classifies as high hazard as defined by Tables D104 and D105.

B. Fire protection system assemblies:

(1) All proposed installations of fire suppression systems shall be reviewed by the City of Hammond Fire Department and the City of Hammond Public Works Department to determine the appropriate type of backflow prevention devices or methods required.

(2) For all proposed fire suppression systems using antifreeze, a reduced pressure principle (#10 on Table D104) backflow prevention device shall be installed at the point of entry. The customer shall provide the city with the design and chemical usage of the fire suppression system.

(3) All existing fire suppression systems shall meet the requirements of section 98-112 above. An inspection by a fire suppression specialist shall be done to determine whether antifreeze has been utilized in the suppression system. The inspection shall be done at the expense of the customer. If it cannot be certified that antifreeze has been used, then a backflow prevention device shall be installed as prescribed by Table D104 and as approved by the City of Hammond Public Works department. Installation shall be at the expense of the customer. The required backflow prevention devices or methods shall be installed at the time the system is repaired or
changed, or within 12 months after adoption of this division, whichever occurs first.

(4) In the event cross-connections, such as those found in using auxiliary water supply systems or in providing other water additives such as foaming agents, are necessary for the proper operation of the fire suppression system, then an air gap or a reduced pressure principle backflow prevention device shall be installed in an approved manner.

Sec. 145–7. Registration.

A. Technician registration: Any backflow prevention assembly technician licensed by the State of Louisiana must register with the administrative authority before performing work within the City of Hammond. Any licensed backflow prevention assembly technician shall include his or her state registration number on all correspondence and forms required by or associated with this division.

B. General tester registration: Any backflow prevention assembly general tester shall present a copy of his/her testing certificate from a nationally recognized backflow certification organization and shall register with the administrative authority before performing work within the City of Hammond.

Sec. 145–8. Noncompliance by registered technicians or general testers.

(a) The local registration of a technician or general tester may be revoked or suspended for a period of up to two years for noncompliance with this division.

(b) Any of the following conditions constitute noncompliance:

(1) Improper testing or repair of backflow prevention assemblies or methods;

(2) Improper reporting of the results of testing or of repairs made to backflow prevention assemblies or methods;

(3) Failure to meet registration requirements; or

(4) Related unethical practices.

Sec. 145–9. Installation of backflow prevention assemblies or methods.

A. The required backflow prevention assemblies or methods for containment shall be installed in the manner recommended by the manufacturer and in accord with the requirements of Section 606 of the LSPC, 2000 Edition, immediately following the meter or as close to that location as deemed practical by the administrative authority. In any case, it shall be located upstream from any branch piping. Installation at this point does not eliminate the responsibility of the customer to protect the water supply system from contamination or pollution between the backflow prevention assembly or methods and the water main.

B. Reduced pressure principle backflow prevention assemblies shall be installed so as to be protected from flooding. The port or discharge point shall be installed such that it is located at least 24 inches above the highest flood level which may have occurred in the previous ten-year period.

C. Reduced pressure principle backflow prevention assemblies or methods shall not be installed in underground vaults or pits, unless a gravity drainage system (designed by a Louisiana registered engineer) for the particular site has been approved by the state health officer. (The intent of the exception to this section is to possibly allow below grade installations on particular sites or lots having sufficiently hilly ground at the proposed location of the device such that when the vault or pit is constructed it may be equipped with positive gravity drainage openings as to prevent any part of the device from being submerged. A recommended design standard for such an installation may be found in Sections 606.4.1 and 606.4.2 of the 1994 Standard Plumbing Code.)

D. All backflow prevention assemblies or methods shall be protected from freezing.
Those devices used for seasonal services may be removed in lieu of being protected from freezing; however, the devices must be reinstalled and tested by a registered backflow prevention assembly technician prior to service being reactivated.

E. If hot water is used within the water supply system, thermal expansion shall be provided for when installing a backflow prevention assembly or method for containment in accordance with Section 613.2 of the LSPC, 2000 Edition.

F. Provisions shall be made to convey the discharge of water from reduced pressure principle backflow prevention assemblies or methods to a suitable drain through an air gap.

G. No backflow prevention assemblies or methods shall be installed in a place where they would create a safety hazard, such as, but not limited to, over an electrical panel, or above ceiling level.

H. If interruption of water service during testing and repair of backflow prevention assemblies or methods for containment is unacceptable to the customer, another backflow prevention assembly or method of equivalent or higher protection, sized to handle the temporary water flow needed during the time of testing or repair, shall be installed in parallel piping.

I. All backflow prevention assemblies or methods shall be installed so that they are accessible for testing.

J. All shut-off valves shall conform with the current edition of the 2000 Edition Louisiana State Plumbing Code requirements for either ball or resilient seat gate valves. Full port ball valves shall be used on assemblies installed in piping two inches or smaller, and full port resilient wedge-type shut off valves on assemblies installed in piping larger than two inches.

Sec. 145-10. Testing of backflow prevention assemblies or methods.

A. Testing of backflow prevention assemblies or methods shall be performed by a backflow prevention assembly technician or by a backflow prevention assembly general tester registered with the administrative authority. The costs of tests required in the following paragraphs shall be borne by the customer.

B. Backflow prevention assemblies or methods shall be tested upon installation; when cleaned, repaired, or overhauled; when relocated; and, shall be tested and inspected at least once annually. Backflow prevention devices shall be tested in accordance with CAN/CSA Standard B64.10-1994 or ASSE Standard 5010-1998.

C. Backflow prevention assemblies or methods which are in place, but have been out of operation for more than three (3) months, shall be tested before being put back into operation. Backflow prevention assemblies or methods used in seasonal applications shall be tested before being put into operation each season.

D. Any backflow prevention assembly or method which fails a periodic test shall be repaired or replaced by a backflow prevention assembly technician when such assembly is located on private property. When such a device is located on public property, a backflow prevention assembly general tester may repair or replace the device if authorized by the water purveyor. When water service has been terminated for noncompliance, the backflow prevention assembly or method shall be repaired or replaced prior to the resumption of water service. Backflow prevention assemblies or methods shall be re-tested by a registered backflow prevention assembly technician or by a backflow prevention assembly general tester immediately after repair or replacement.

E. The City of Hammond Public Works Department may require backflow prevention assemblies or methods to be tested at any time in addition to the annual testing requirement.

F. The registered backflow prevention assembly technician or backflow prevention assembly general tester shall report the testing of backflow prevention assembly or method to the customer and to the administrative authority within 15 days of the test.

G. The administrative authority may require, at its own cost, additional tests of
individual backflow prevention assemblies or methods as it shall deem necessary to verify test procedures and results.

Sec. 145–11. Repair of backflow prevention assemblies or methods.

A. All repairs to backflow prevention assemblies or methods on private property shall be performed by a licensed plumber holding a special water supply protection specialist endorsement on his plumbing license, herein defined as backflow prevention assembly technician.

B. After obtaining approval from the water purveyor, a backflow prevention assembly general tester may perform repairs to backflow prevention assemblies or methods located on public property.

C. The registered backflow prevention assembly technician or backflow prevention assembly general tester shall not change the design, material, or operational characteristics of a backflow prevention assembly or method during repair or maintenance, and shall use only original manufacturer replacement parts, if available; if not available, shall use replacement parts approved by the department of inspections.

D. The registered backflow prevention assembly technician or backflow prevention assembly general tester shall report the repair, overhaul, or replacement of any backflow prevention assembly or method to the customer and to the City of Hammond Public Works Department on the form provided by the City of Hammond Public Works department within 15 days of the repair.

Sec. 145–12. Customer noncompliance.

The water service may be discontinued in the case of noncompliance with this division. Noncompliance includes, but is not limited to, the following:

(1) Refusal to allow the administrative authority or water purveyor access to the property to inspect for cross-connection;

(2) Removal of a backflow prevention assembly or method which has been required by the administrative authority;

(3) Bypassing of a backflow prevention assembly or method which has been required by the administrative authority;

(4) Providing inadequate backflow prevention when potential or actual cross-connections exist;

(5) Failure to install a backflow prevention assembly or method which has been required by the administrative authority;

(6) Failure to test and/or properly repair a backflow prevention assembly or method as required by the administrative authority; or

(7) Failure to comply with the requirements of this division.

Sec. 145–13. Penalty for violation.

Apart from any other penalties or sanctions imposed by local or state laws, any person found guilty of violating any provision of this section shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished in accordance with Section 1-8 of the Hammond Code of Ordinances. Each day that a violation is allowed to continue shall constitute a separate and distinct violation.
2. This ordinance shall be effective as of the date of signature by the Mayor.

Clerk of Hammond City Council
ORDINANCE NO. 15-5436 C.S.

An Ordinance to Amend Ordinance No. 2000-2692, C.S.
Pertaining to the Pay Plan for City Employees

BE IT ORDAINED by the City Council of Hammond, Louisiana, that Ordinance No. 2000-2692 C.S., shall be and is hereby modified to read as follows:

I. PURPOSE: To establish a standard method of determining the rates of Compensation for the various job function required for the City of Hammond for full-time employees, to clearly define the essential functions of each position through written job descriptions, to comply with federal, state, and local regulations, and to establish a system that is easily administered and maintained.

II. POLICY: It is the policy of the City of Hammond that all City employees, other than those specifically excluded herein, be compensated solely upon rank and seniority. Prior pay plans have based compensation on other factors, resulting in employees of equal rank and seniority being paid differently. It is the intent of the City of Hammond to implement a pay plan that would both eliminate prior pay differences among employees of equal rank and seniority within each department and to create a uniform method of future compensation for those employees.

III. PAY PLAN: Adjustments made to the pay plan shall be based upon a market survey. Within each pay grade, and subject to appropriation by the City Council, annual increases of 2% shall be given on the employee's anniversary date for a maximum of 23 steps for each employee. Steps 24-30 shall reflect a 1% annual raise. For any employee for whom State law mandates an annual longevity pay increase, compliance with State law shall serve as compliance with this ordinance. A table depicting these pay grades and annual increases shall be called the "grid."

IV. GENERAL TERMS AND CONDITIONS: The following definitions of words, terms, and phrases shall apply to this ordinance and shall be used in the interpretation of the various rules, procedures, formulas, and practices necessary to implement, monitor, and maintain the compensation structure of the City of Hammond.

1. Anniversary Increases: An increase of an employee's annual salary occurring on that employee's anniversary date and which shall equal one step in the pay grid.

3. Call Back Pay: Employees required to return to duty after normal work hours due to an emergency situation that involves clear and present danger to life and property shall be granted a minimum of two hours of pay at the overtime rate. Such emergencies do not include post activities or duties handled after the incident has occurred or when there is no threat to life and property. Call Back Pay on a holiday shall be at the standard holiday rate.

4. City: City of Hammond

5. Classified Employee: An employee working under the rules and regulations of the Municipal Fire and Police Civil Service Board and state Civil Service law. All City policies not
in conflict with local Civil Service rules or regulations or state Civil Service law shall apply to all classified employees.

Employees who leave employment with the City and who are rehired within one year of their separation, shall be eligible for re-instatement of their previous seniority status if, at the time of separation, the employees left the City voluntarily and in good standing with no pending or active disciplinary action at the time of separation. The length of time of separation shall be determined, and that separation shall be added to the original hire date in order to determine the effective hire date. Employees shall not be eligible for re-instatement of seniority benefits if their time of separation exceeds one year. Employees rehired after one year of separation shall forfeit all rights and previously earned benefits and shall begin employment as if they were a new employee. Returning employees shall be allowed to purchase their previously earned retirement years, in accordance with current rules and regulations of the Municipal Employees Retirement System (MERS). All other benefits shall remain unaffected.

It shall be the responsibility of the grant administrator to provide to the Accounting/Payroll Department, sufficient documentation to justify payment of grant pay. Grant pay shall not be paid until, in the opinion of the Accounting Supervisor, that documentation is sufficient and in keeping with generally accepted accounting procedures. Exempt employees are not eligible for grant pay.

11. Grid or The Grid: A table depicting annual rates of pay for all job classifications, including pay grades and steps.

The employee shall remain employed contingent upon the availability of the grant funds. Loss of any or all of the funds shall result in a reduction in pay and benefits in the same proportion of the reduction. In the case of elimination of the funds, the position occupied by that employee may be eliminated.

17. Offer of Employment: A written proposal prepared by the Personnel Department detailing the specifics of the job offer, i.e. the title of the job being offered, the beginning salary, and the proposed effective date that employment will begin.

18. Overtime Pay: Paid at one and one half the normal rate for those hours actually worked in excess of a minimum of forty (40) hours for eligible non-classified employees, in excess of a minimum of eighty (80) hours for eligible classified Police, Fire Prevention, and Fire Dispatch employees, and in excess of a minimum of one hundred and six (106) hours for eligible classified Fire employees, during a standard work period. VI. PROMOTIONS AND ADJUSTMENTS

A. PROMOTIONS

Promotions are subject to a six-month to one-year probationary period. During this period, the employee's performance in the new position will be reviewed and evaluated. The employee's Department Head or supervisor will complete a written performance appraisal at the end of the probationary period. The results of the appraisal, as approved by the Mayor, will determine whether the promotion shall be considered confirmed.

All promotions must be coordinated between the Department Head and the Director of Personnel and approved by the Mayor and Director of Administration.

A lateral transfer occurs when an employee is transferred from one job class to another in the same, or substantially equivalent, pay grade. When there is no change in pay grade, there shall be no adjustment in base salary. A lateral transfer is not considered a reclassification or promotion.

1. Fire Personnel in the Civil Service Pay Plan—Classified employees in the Fire department shall follow State law governing promotions within classes, and shall, subject to the following, be paid the salary indicated in the Grid for a particular rank. Step placement shall be to the closest step position that includes the new salary in the new pay grade.
   a. The starting rank for classified Fire Personnel shall be "Firefighter." Upon promotion to the position "Firefighter First Class," employees shall be paid 5% above their current pay grade and step of "Firefighter."
   b. Upon promotion to the position "Operator," employees shall be paid 5% above their current pay grade and step of "Firefighter First Class."
c. Upon promotion to the position “Captain,” “Fire Alarm Operator,” or “Fire Inspector,” or any other person doing this type of work for the fire department, employees shall be paid 15% above their current pay grade and step of “Operator.”

d. Upon promotion to the position “District Chief,” employees shall be paid 15% above their current pay grade and step of “Captain,” “Fire Alarm Operator,” or “Fire Inspector,” or any other person doing this type of work for the fire department.

e. Upon promotion to the position “Assistant Chief,” employees shall be paid 10% above their current pay grade and step of “District Chief.”

2. Police Personnel in the Civil Service Pay Plan—Classified employees in the Police department shall follow the concept of state law governing promotions within classes, and shall, subject to the following, be paid the salary indicated in the Grid for a particular rank. Step placement shall be to the closest step position that includes the new salary in the new pay grade.

   a. The starting rank for classified Police Personnel shall be “Police Officer.” Upon promotion to the position “Sergeant,” employees shall be paid 10% above their current pay grade and step of “Police Officer.”

   b. Upon promotion to the position “Lieutenant,” employees shall be paid 5% above their current pay grade and step of “Sergeant.”

   c. Upon promotion to the position “Captain,” employees shall be paid 10% above their current pay grade and step of “Lieutenant.”

   d. Upon promotion to the position “Assistant Chief,” employees shall be paid 15% above their current pay grade and step of “Captain.”

3. All Other Employees—When an employee is promoted, as a result of a job change or job progression, to a higher pay grade position, within the same or to a different salary schedule, the salary placement within the new pay grade shall be determined as follows: apply 5% on the salary of the current grade and step for promotions of one pay grade, and an additional 2.5% for each additional pay grade up to a maximum of 10%. Step placement shall be to the closest step position that includes the new salary in the new pay grade. The resulting pay will be no less than the minimum of the new pay grade and no less than a 5% salary increase, but not more than the maximum salary of the assigned pay grade.

   In circumstances where the uniqueness of an individual job and level or necessary skills are required by the City, but not only those skills possessed by the incumbent, a higher pay grade placement may be justified. Under such circumstances, the Mayor may recommend a higher salary placement within the assigned pay grade.

B. ADJUSTMENTS

   Employees may be adjusted downward due to failure to perform the duties of their present jobs, lack of a suitable job at their pay levels, reorganization, lack of work, or because of the City’s need to manage the work force.

   A demotion is an assignment to a lower paying job classification and a work assignment within the lower classification with lesser responsibilities.

   An employee, who is demoted to a classification with a lower pay grade or lower maximum salary, shall be compensated at a rate that mirrors the guidelines for promotions, and/or reflects a decrease in pay within the limits of the lower pay range.

   A written notice of demotion must be given to the employee that describes the deficiency or the infraction involved and which also must state the likely consequences of further unsatisfactory performance or conduct.

   The demotion shall be permanently entered into the employee’s personnel file, but the employee shall not be disqualified for future promotions.

C. REASSIGNMENTS

   An employee who is reassigned to another position, as determined by the best interest of
the City, will not suffer any reduction in his current salary, but may be "redlined" for future anniversary increases.

In the instance of an involuntary reassignment due to an employee's inability to perform the functions required of the position assigned to, such reassignment will result in a reduction of duties and in pay, if the reassignment is to a lower job classification than that of the employee's current position.

All reassignments must be coordinated between the Department Head and the Director of Personnel, and approved by the Mayor through the Director of Administration.

Be it further ordained by the City of Hammond that the effective date of this Ordinance shall be July 1, 2015.
