The City's Garbage Contractor must use the Tangipahoa Parish Landfill per Tangipahoa Parish Ordinance. (Ord. No. 06-60, 9-25-06; Ord. No. 07-17, 2-26-07)

**2-CLARIFICATION Appendix A: Cost Description Sheet**

As per Appendix A: Cost Description Sheet, the Cities are seeking pricing on garbage cart service, to be picked up twice a week, with a cart provided by the contractor, and to include up to 2 cubic yards placed outside of the cart (such as boxes or vegetative waste) The Cities are also seeking pricing on recycling costs for a drop-off site with a roll-off dumpster to collect recyclables. Contractors are able to provide additional pricing for other garbage and/or recycling options as part of their proposals, but these are the two areas where the City is interested in pricing.

**3-ADDITION Section 3.5 Annual Review & Amendment (to be Incorporated in the Contract)**

The Contractor and City agree that the aforementioned rate will be firm for the initial year of the contract. Annually, on the anniversary date of the contract, beginning in 2023 and going forward, the contractor may adjust the rate in accordance with any increase in the Consumer Price Index for all Urban Consumers: Water and Sewer and Trash Collection Services in U.S. City Averages, not to exceed a 6% yearly increase.

Additionally, the Contractor may petition the City to modify the rates at reasonable times based on changes in circumstances beyond the Contractor's control such as increased taxes or fees imposed by governmental agencies (excluding income taxes); however no rate adjustment shall be made without supporting documentation of said increases and subject to a formal approval by the City.
