PROPOSAL – OFFICIAL JOURNAL

The following proposal is submitted as our bid to continue as The Official Journal for the City of Hammond for the period July 1, 2024 through June 30, 2025. In addition to notices appearing in The Daily Star, legal notices are posted on the Internet at www.lapress.com- Louisiana Public Notices as well as our website at www.hammondstar.com. Daily Star circulation 3,995.

The Daily Star submits the following proposal to serve as the City of Hammond's Official Journal:

\$6.00 per square of 100 words per insertion.

Procedure for determining the space occupied by legal notices and judicial proceedings that are submitted for advertising in the Daily Star.

Definitions

1. A square is 100 words set solid.
2. One square equals 3.125 col. Inches
3. 50 words per 1.563 inches or 100 words in 3.125 column inches.
4. Commercial classified ads are set at a standard 7-point type.

Four types of legal notice and judicial proceedings advertising

1. Judicial notices are charged by the column inch at 90% of commercial classified rate.
2. Tabular legal notice advertising – defined as consisting of a table- a numerical or alphabetical sequence arranged in a list or use of other graphic elements indicating a list or series, use of rules and borders separating copy, accounting presentations in rows and/or columns, scientific tables, surveyor tables or lists.

(a). Copy submitted by fax, mail, or hand delivered:
Scan copy as submitted. Reduce to 7pt. type (35% average reduction), divide by 2 = no. of squares x rate x number of insertions = amount to be billed. Billable space includes the white space that would have “otherwise been occupied”.
- (b). Copy submitted by E-Mail that can be “flowed” into our single column format. Note: Not all copy lends itself to be “flowed”. Tables, rows, of numbers or multiple lists for example may not be readable and will then be scanned as submitted and charged as described in 2 (a). above.
3. Straight copy defined as not tabular, that is submitted by fax, mail, or hand delivered.

(a). Scan and reduce to 7 point type (35% reduction) then reduce that result by 40% to obtain the equivalent column inch space that would occupy 100 words set solid. Divide by 2 =no. of squares x rate x insertions. This eliminates white space.
- (b). For copy submitted by E-Mail flow the copy into Base view software, which automatically sets the copy at 7 point, to determine the column inches. Divide by 2 = no. square x rate x insertion.
4. For legal notices that contain both tabular and straight copy. Follow procedures as described above, separating the space occupied by the tabular copy (follow step 2 (a) or (b) and the space occupied by straight copy (follow step 3 (a) or (b)).

The Daily Star meets all requirements of La. R.S. 43:142. We look forward to continuing to serve the City of Hammond’s Official Journal.

Sincerely yours,

Reece Terry
