Planner Recommendation

The City Planner recommended approval based on the review criteria set forth in the Unified Development Code:

- (1) The proposed zoning map amendment is consistent with the pertinent elements of the City of Hammond comprehensive plan and any other adopted plans;
- (2) The proposed zoning map amendment is consistent with the areas designated context;
- (3) The proposed zoning map amendment will reinforce the existing or planned character of the neighborhood;
- (4) The site is appropriate for the development allowed in the proposed district;
- (5) There are substantial reasons why the property cannot be used according to the existing zoning;
- (6) Public facilities and services including but not limited to schools, roads, recreation facilities, wastewater treatment, water supply and stormwater facilities, police, fire and emergency medical services are adequate for the development allowed in the proposed district; and
- (7) The zoning map amendment will not substantially or permanently injure the appropriate use of adjacent conforming properties.

Discussion

A majority of these lot areas are presently zoned MX-C with 100-foot street frontages that are MX-N. While having multiple zoning districts overlapping a lot may be appropriate, the circumstances here complicate development. The area of each lot is small, and many of the back portions have no road frontage. Approval to rezone to MX-C is recommended with the understanding that the developer's intent is to use the property so that it complements the residential areas.

According to the UDC:

MX-C is intended to provide for a variety of residential, retail, service, and commercial uses. While MX-C accommodates commercial uses, the inclusion of residential and employment uses are strongly encouraged to promote live-work and mixed-use opportunities.

MX-N is intended to provide appropriate areas for new and existing development that incorporates both small-scale residential and office uses within close proximity to one another and adjacent neighborhoods. The district is also intended to provide for live/work opportunities where people can live and work in the same physical space. The district can also be used as a transition between arterials or more intense commercial areas and established residential neighborhoods. Neighborhood Mixed Use is intended to provide for a variety of residential, retail, service and commercial uses all within walking distance of residential neighborhoods.

Commission Recommendation

Motion by: Motion to approve by Monica Perez; seconded by Kylan Douglas. Three for, none against; motion passed.
