GM Heather,

I have received your letter on cleaning up the site, a crew has been hired to address the vegetation growth and will address in the next few days.

Windows and doors will be secured in preparation of the property moving forward with an approval of construction for this location.

Plans for either a 1 story or multistory building in the next 90 days will be submitted to the city as my team prepares to take steps to put the location into commerce.

I will keep you posted as new developments occur.

Thank you all.

Darryl
